IN THE MATTER OF the *Ontario Energy Board Act*, 1998, S.O. 1998, c.15 (Schedule B);

AND IN THE MATTER OF an Application by Union Gas Limited, pursuant to section 36(1) of the *Ontario Energy Board Act, 1998*, for an order or orders approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission, and storage of gas as of October 1, 2007;

AND IN THE MATTER OF the Quarterly Rate Adjustment Mechanism approved by the Ontario Energy Board in RP-2003-0063.

BEFORE: Ken Quesnelle
Member

DECISION AND ORDER

Union Gas Limited (“Union”) filed an application (the “Application”) dated August 28, 2007, with the Ontario Energy Board (the “Board”) for an order or orders approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission, and storage of gas commencing October 1, 2007. The Application was made pursuant to Union’s approved Quarterly Rate Adjustment Mechanism (“QRAM”). Union also provided the Application and evidence supporting the proposed changes to all parties of record in the EB-2005-0520 proceeding. Union requested a decision by September 13, 2007. Union’s application was assigned Board file number EB-2007-0720.

Although this application deals with Union’s proposed QRAM changes effective October 1, 2007 Union also proposed to implement rate changes to reflect the impact of the EB-2007-0598 Decision (dealing with Union’s 2006 Deferral Disposition and Earnings

Sharing amounts) concurrently. The EB-2007-0598 Draft Rate Order was filed with the Board on a without prejudice basis to appeal on August 27th and distributed to Intervenors on August 28th.

On August 30, 2007, the Board issued a Notice of Written Hearing and Procedural Order No. 1 setting September 6, 2007 as the deadline for submissions on the Application and September 10, 2007 as the deadline for Union's reply submissions.

The Board received a submission from Board Staff inquiring about the timing of the implementation of the QRAM Rate Orders. In its response, Union proposed to proceed only with the implementation of the October QRAM, if the EB-2007-0598 Rate Order could not be implemented concurrently with this quarterly rate adjustment. To that effect, Union also filed revised QRAM application schedules which exclude the impacts of the Board's Decision in EB-2007-0598. In order to implement the rate changes effective October 1, 2007 Union requested a decision by September 13, 2007.

Since the Board is yet to render its decision with respect to the EB-2007-0598 Rate Order, the Board accepts Union's request to proceed with the implementation of the October QRAM.

The Board received a submission from the Industrial Gas Users Association providing their support for the approval of the revised October QRAM that excludes the impacts of the Deferral Account and Earnings Sharing Disposition so long as interest accrues on the Deferral account and Earnings Sharing balances.

The Board does not consider the issues raised by IGUA pertaining to the manner in which the aforementioned accounts are disposed of to be within the scope of this proceeding. The Board accepts that IGUA is otherwise satisfied with Union's revised application.

The Board has considered the evidence and finds that it is appropriate to adjust Union's rates effective October 1, 2007 to reflect the projected changes in gas costs and the prospective recovery of the projected twelve-month balances of the gas supply deferral accounts for the period ending September 30, 2008. The Board also finds that it is appropriate to adjust Union's reference prices to reflect the projected changes in gas costs.

Costs

A decision regarding cost awards will be issued at a later date. The eligible parties shall submit their cost claims by September 24, 2007. A copy of the cost claim must be filed with the Board and one copy is to be served on Union. The cost claims must be done in accordance with the Board's Practice Direction on Cost Awards.

Union will have until October 1, 2007 to object to any aspect of the costs claimed. A copy of the objection must be filed with the Board and one copy must be served on the party against whose claim the objection is being made.

The party whose cost claim was objected to, will have until October 9, 2007 to make a reply submission as to why their cost claim should be allowed. Again, a copy of the submission must be filed with the Board and one copy is to be served on Union

THE BOARD ORDERS THAT:

1. The Alberta Border Reference Price used to set Union's rates and other charges be established at \$7.426/GJ (27.8995 ¢/m³). The resulting rate changes set out in Appendix "A" and the rate schedules set out in Appendix "B" shall be effective October 1, 2007. The Alberta Border Reference Price shall also be used for the North Purchased Gas Variance Account (Deferral Account No. 179-105) and the TCPL Tolls and Fuel - Northern and Eastern Operations Area deferral account (Deferral Account No. 179-100).
2. The rates pursuant to all contracts for interruptible service under Rates 16, 25, M5A, M7, and T1 be adjusted effective October 1, 2007, by the amounts set out in Appendix "C". The rates pursuant to contracts for interruptible service under Rate 25 shall be negotiated within the range as adjusted in Appendix "C";
3. The reference price for use in determining the amounts to be recorded in the South Purchased Gas Variance Account (Deferral Account No. 179-106) be set at the Ontario Landed Reference Price of \$8.804/GJ (33.0766 ¢/m³) effective October 1, 2007. The Ontario Landed Reference Price shall also be used for the Spot Gas Variance Account (Deferral Account No. 179-107).

4. The South Portfolio Cost Differential be established at \$0.145/GJ (0.5448 ¢/m³) effective October 1, 2007;
5. The inventory revaluation credit resulting from changes in the reference price as of October 1, 2007 be recorded in the Inventory Revaluation Account (Deferral Account No. 179-109); and
6. The respective forms of the customer notices set out in Appendix "D" be provided to all customers with the first bill or invoice reflecting the new rates.

ADDITIONAL CHARGES FOR SALES SERVICE

GAS SUPPLY CHARGES

Gas Supply Charge (if applicable)

The gas supply charge is comprised of charges for transportation and for commodity and fuel. The applicable rates are provided in Schedule "A".

MONTHLY BILL

The monthly bill will equal the sum of the monthly charges plus the rates multiplied by the applicable gas quantities delivered plus all applicable taxes. If the customer transports its own gas, the Gas Supply Charge under Sales Service will not apply.

MINIMUM MONTHLY BILL

The Minimum Monthly Bill shall be the Monthly Charge.

DELAYED PAYMENT

When payment of the monthly bill has not been made in full 16 days after the bill has been issued, the unpaid balance including previous arrears shall be increased by 1.5%.

SERVICE AGREEMENT

Customers providing their own gas supply in whole or in part, for transportation by Union, must enter into a Service Agreement with Union.

TERMS AND CONDITIONS OF SERVICE

1. If multiple end-users are receiving service from a customer under this rate, for billing purposes, the Monthly Charge, the Delivery Charge and any other charge that is specific to the location of each end-user shall be used to develop a monthly bill for each end-user at each location. Upon request, possibly for a fee, Union will combine the individual bills on a single invoice or statement for administrative convenience. However, Union will not combine the quantities or demands of several end-use locations so that eligibility to a different rate class will result. Further, Union will not combine the monthly billing data of individual end-users to generate a single bill which is less than the sum of the monthly bills of the individual end-users involved at each location.
2. Customers must enter into a Service Agreement with Union prior to the commencement of service.
3. The identified rates (excluding gas supply charges, if applicable) represent maximum prices for service. These rates may change periodically. Multi-year prices may also be negotiated, which may be higher than the identified rates.

Overrun volumes will not contribute to the minimum volume. In the event that the customer shall not take such minimum volume, the customer shall pay an amount equal to the deficiency from the minimum volume times a Delivery charge of 1.5464¢ per m³.

In the event that the contract period exceeds one year, the annual minimum volume will be prorated for any part year.

A Spectra Energy Company

The Ontario Energy Board has approved changes to the rates Union Gas charges its customers effective October 1, 2007. For most customers, the total decrease will amount to \$58.21 per year based on an annual volume of 2,600 m³. The enclosed bill uses the new rates.

Gas Commodity

The gas commodity rate has decreased by 3.5515 cents/m³ to 28.5823 cents/m³ based on the decrease in Union Gas' forecast cost to purchase natural gas during the next 12 months. For most customers, the decrease will amount to \$92.32 annually depending on how much gas is used. You will see the new rate in the "Gas Used" line on your bill.

In addition, an increase in the gas price adjustment of 1.3363 cents/m³ reflects the difference between the projected cost of gas that Union Gas expects to pay and the amount that Union Gas expects to recover through the current gas commodity rate during the next 12 months. For most customers, the increase will be about \$34.73 per year depending on the amount of gas used. The new rate appears on the "Gas Price Adjustment" line on your bill.

The gas rate is adjusted this way so that you are billed at a rate that more closely reflects the market price of gas and avoids large out-of-period adjustments.

Union Gas does not earn income on the sale of the gas commodity. The price we pay for gas is passed directly to customers with no profit included.

Transportation

There is a decrease in the transportation price adjustment of 0.0253 cents/m³. For most customers, the decrease will be about \$0.66 per year depending on the amount of gas used. You will see the new rate in the "Transportation Price Adjustment" line on your bill.

The Ontario Energy Board has approved changes to the rates Union Gas charges its customers. New rates for **Rate M4** will be applied to bills starting October 1, 2007. Your new rates are shown on the accompanying rate schedule. Changes in the rate levels are detailed in the attached appendix.

Delivery

A review of the gas costs to ensure reliable natural gas service to your business during the year results in an increase in the delivery commodity rate of 0.0004 ¢/m^3 . You will see this change on the “**Delivery-Price Adjustment**” line on your bill.

Transportation

The cost to transport natural gas to Ontario, **if applicable to your service**, has changed, resulting in a decrease of 0.2543 ¢/m^3 in the transportation rate to 3.3287 ¢/m^3 .

Gas Supply

The gas commodity charge, **if applicable to your service**, has decreased by 3.7516 ¢/m^3 to 29.5223 ¢/m^3 . This change reflects a decrease in Union Gas' forecast cost to purchase natural gas for the next 12 months.

In addition, there is an increase of 1.1840 ¢/m^3 related to the difference between the projected cost of natural gas that Union Gas expects to pay and the amounts that Union Gas expects to recover through its current gas commodity rate over the next 12 months. You will see the new rate on the “**Gas Price Adjustment**” line on your bill.

Adjusting your gas rate in this way ensures that you are billed at a rate that more closely reflects the market price of natural gas and avoids large out-of-period adjustments.

Union Gas does not earn income on the sale of the natural gas commodity. The price we pay for the gas commodity is passed on directly to customers with no profit included.
