OEB Questionnaire Results - What is important?

Answered: 19   Skipped: 0
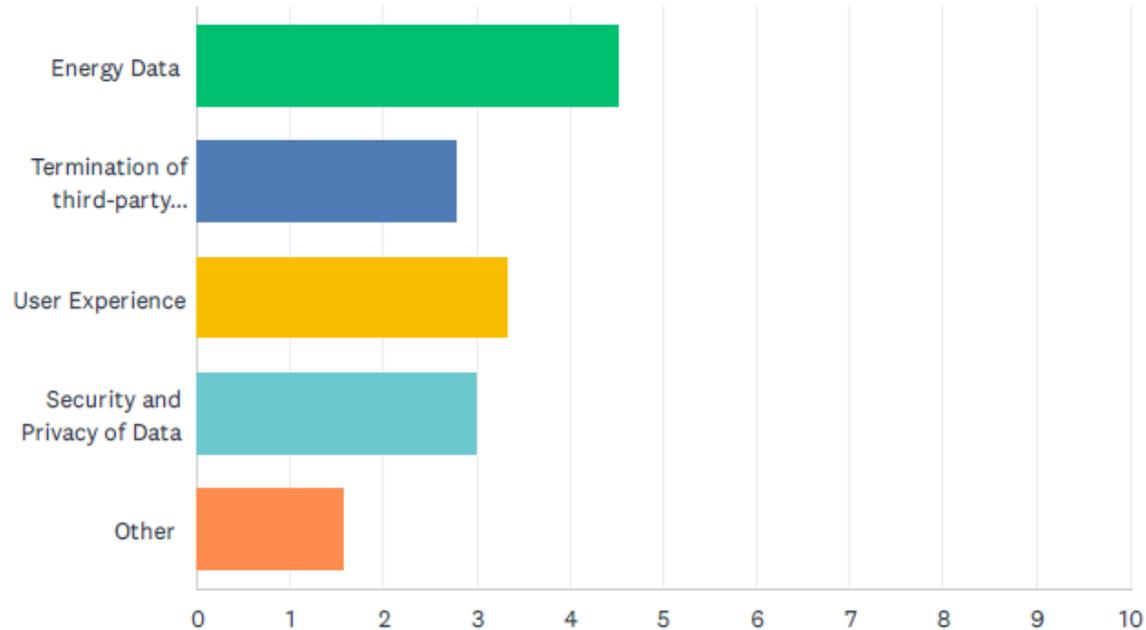

List of Items from Previous Meetings

Discuss Virtual Accounts (e.g., Alectra)

Need clarity on what the 'product' will be and how it works.

Some Parties would like to provide demonstrations.

What about the MDMR. Can it be used?

Can we support non-digital Authorizations. (e.g., paper) What are the costs?

The Regulation - O. Reg. 633/21: ENERGY DATA

"energy data" means any energy usage and account holder information identified in REQ.21.2.5t or REQ.21.2.6t in the **NAESB ESPI standard that is collected by the energy provider** and **made available to account holders in the normal course of the energy provider's operation**s, excluding any data collected in respect of projects that are being undertaken on a trial basis; ("données énergétiques")

(2.4) Every energy provider shall ensure that account holders and, if applicable, any persons or entities who have been authorized by the account holder under section 3 have access to the account holder's energy data for at least the lesser of,(a) **the previous 24 months;** or(b) the period of time within the previous 24 months during which the account holder held an account with the energy provider.

(2.5) **Every energy provider shall ensure that the energy data made available to account holders and, if applicable, authorized persons** and entities provides energy usage information for **interval periods of one hour or less, subject to any limitations** of the energy provider's metering infrastructure
