

Good evening everyone. My name is Eric Giroux, I am a business representative for the Operating Engineers Local 793 and also a pipeline rep. I come from a family who my father now retired has worked all his years in the pipeline sector and I from the early 90's to 2001. The Operating Engineers have been working on pipeline with Trans Canada pipeline for decades. Trans Canada pipeline has the best Environmental and safety in the world as far as I know. We have a high quality of operators and also our training is incredible. As a rep, father, trapper, hunter and fishermen I am please to hear that we are looking to make the oil line a project for the future. In my opinion this is the safest way and it will also boost our economy.

Thank you very much for your time.

Eric Giroux
Bus. Rep.
IUOE Local 793
