Toronto, ON M4P 1E4  
Attention: Ms. K. Walli, Board Secretary

Dear Ms. Walli:

**Re: RP-2004-0205**

Enersource Hydro Mississauga Inc. (“**Enersource**”) supports the proposed amendments to the Standard Supply Service Code. Enersource is presently conducting a Smart Meter pilot project with 550 of its customers, pursuant to its Third Tranche Conservation and Demand Management program. Some of these customers have expressed interest in a proposed time of use pricing program. The proposed amendments will facilitate acting on that expression of interest.

Enersource finds it curious that a distributor who intends to act on these amendments will require prior OEB approval. The same outcome may be achieved by conditioning eligibility by the criteria identified in the July 12, 2006 letter.

Sincerely

K. Litt  
Regulatory Affairs Advisor
