Ms. Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, Ontario
M4P 1E4

Dear Ms. Walli:

**Re: Northern York Region Electricity Supply
Board File No.: EB-2005-0315**

By letter of April 20, 2007, the OEB requested the Ontario Power Authority develop a three year plan to address the possible overloading at the Armitage Transfer Station. The plan is to include a two phase remedial action plan to address the short-term electricity requirements in the Northern York Region for the summer of 2007 and the longer-term requirements from October 2007 to December 2009.

The OPA is hereby submitting the first phase of its plan which incorporates the views of the IESO, Hydro One and the York Region Distributors. The OPA wishes to thank these parties for their co-operation and assistance in completing the attached document.

Attached please find eight paper copies, and one electronic version in pdf format sent by email to Boardsec@oeb.gov.on.ca.

Yours truly,

A handwritten signature in black ink, appearing to read 'Michael Lyle', is written over a horizontal line.

Michael Lyle
General Counsel

Att.
