Re: York Region Supply

Dear Mr. Toneguzzo:

The attached letter dated June 8, 2005 was sent to Power Stream, Aurora Hydro, and Newmarket Hydro. It directed each of the utilities to comment on the distribution option as outlined in "Hydro One's Report on the Status of Critical Transmission reinforcements for the Period 2005-2008" and report back to the Board by June 30, 2005.

By this letter, the Board directs you under section 14 of your distribution licence to comment on the distribution option outlined in Hydro One's report by no later than June 30, 2005. These comments should at a minimum address the technical feasibility of the option, the estimated cost and in service time and the length of time for which the option would be likely to address the needs of York Region. You may also address other possible distribution options.

Your response to the Board must also be copied to the Ontario Power Authority and each other.

Yours truly,

Peter H. O'Dell
Assistant Board Secretary
