

Smart meters. Smart people. Award-winning results.

Chatham-Kent Energy's Executive & Board of Directors congratulates Hugh Bridgen and the Smart Metering Team at Chatham-Kent Hydro for winning the Utility Planning Network's 2005/2006 award for Best Metering Data Integration Initiative. The Team's effort resulted in tools that give customers the ability and incentives to manage energy more intelligently...and will contribute to Ontario's drive for energy self-sufficiency and the creation of a conservation culture.

World class recognition in the UPN's Annual Metering Awards Program reinforces the fact that great employees with a focus on innovation and customer service deliver extraordinary results.

Well done Hugh & Team.

Matt Stiers, Dan Charron, Patricia Dauphin, Hugh Bridgen, Tracy Manso
