Dear Mr. Shepherd:

**Re: EB-2006-0088/89 Waterloo North Hydro's Response to SEC's  
Questions on Cost of Capital and 2<sup>nd</sup> Generation Incentive  
Regulation for Electricity Distribution Companies**

In response to the Questions from the School Energy Coalition (SEC) on the Cost of Capital and 2<sup>nd</sup> Generation Incentive Regulation for Electricity Distribution Companies, Waterloo North Hydro Inc. (WNH) supports the response of the Electricity Distributor Association (EDA) on behalf of its Local Distribution Company (LDC) members.

WNH has expressed concern to the Ontario Energy Board (OEB) regarding the duplication of requests for public documents that have previously been filed by an LDC with the OEB. WNH is committed to seek efficiencies wherever possible and as such it is concerned as to what we perceive as a duplication of efforts in many areas. WNH has advocated a review, in all areas where LDCs are required to file information to the OEB, to determine where filing efficiencies can be obtained and duplication of efforts can be eliminated. As a matter of courtesy to the SEC, we have attached any requested documents that are on the public record for your convenience. WNH will direct future requests by parties, of a similar nature, to the OEB records department.

If there are any questions, please contact myself, Gerry Hilhorst, at 519-888-5550, [g hilhorst@wnhydro.com](mailto:g hilhorst@wnhydro.com).

Yours truly,

**Via e-mail only**

Gerry Hilhorst, P.Eng
