E-Mail to Board Secretary

Re: EB-2006-0089 - 2<sup>nd</sup> Generation Incentive Regulation Mechanism & the OEB's  
Multi-year electricity rate setting plan.

Dear Sir,

I wish to advise The Board of my desire to participate in the above regard. It is difficult to select level of participation as there are so many different issues. My main interests are number 5 – Distribution rate design and number 7 – Line Losses and distributed Generation.

This is a comprehensive and vigorous plan and therefore I wish to participate by way of section 24 of The OEB's practice and procedure – Public Comment. I wish to be advised if possible as to the commencement of the above 2 issues. I will then follow the proceedings.

I have no request for a cost award.

Respectfully submitted,

Thomas G. Weir
