Attn: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

Re: Board File No. EB-2006-0170 – Staff Proposal on the Minimum Filing Requirements for Transmission and Distribution Rate Applications and Leave to Construct Projects

In regard to the Board's request for comments on the above noted Staff Proposal, we would like to submit comments relating to Chapter 2 which sets out the filing requirements for distributors in a rebasing rate year.

Upon review of the proposed filing requirements, we are concerned with the volume of information required and the associated resources, time and expense in gathering this information. Also, we feel it would be beneficial if standard information templates were developed by the Board to assist Distributors in preparing consistent reports. This would also prove beneficial to the Board and to Intervenors in reviewing these filings.

We thank you for the opportunity to comment on this initiative. I can be reached at the contact information listed below if you have any questions on the above comments.

Yours truly,

ENWIN Powerlines Ltd.
