Mr. Patrick Hoey
Director, Regulatory Affairs
Enbridge Gas Distribution Inc.
500 Consumers Road
Toronto ON M1K 5E3

Dear Mr. Hoey:

**Re: Enbridge Gas Distribution Inc. Decision and Order
Quarterly Rate Adjustment Mechanism effective January 1, 2007
Board File No.: EB-2006-0288**

The Board has now issued its Decision and Order in the above matter, and an executed copy is enclosed.

You are directed:

1. to immediately serve a copy of this Rate Order, either personally by courier or by registered mail, to the interested parties listed in Appendix "C";
2. to file with the Board affidavit evidence proving the above service immediately upon completion, with a copy of the Order and the original Post Office Registration Receipts (where applicable) and/or courier slips attached as appendices and;
3. to file with the Board, as soon as these are available, one copy of each of the printed notices being sent by Enbridge Gas Distribution Inc. to its customers in the forms attached as Appendix "B" to the Order.

Yours truly,

Original signed by

Kirsten Walli
Board Secretary

EB-2006-0288

IN THE MATTER OF the *Ontario Energy Board Act*, 1998, S.O. 1998, c.15 (Schedule B);

AND IN THE MATTER OF an application by Enbridge Gas Distribution Inc, pursuant to section 36(1) of the *Ontario Energy Board Act, 1998*, for an order or orders approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission, and storage of gas as of January 1, 2007;

AND IN THE MATTER OF the Quarterly Rate Adjustment Mechanism approved by the Ontario Energy Board in RP-2000-0040, in RP-2002-0133 and in RP-2003-0203.

BEFORE: Ken Quesnelle
Presiding Member

DECISION AND ORDER

Enbridge Gas Distribution Inc. ("EGDI" or the "Company") filed an application with the Ontario Energy Board dated December 4, 2006, for an interim order approving or fixing rates for the sale, distribution, transmission, and storage of gas effective January 1, 2007 (the "Application"). The Board has assigned file number EB-2006-0288 to the Application.

EGDI indicated that the Application was prepared in accordance with the Quarterly Rate Adjustment Mechanism ("QRAM") approved by the Board in RP-2000-0040 and described in Issue 2.2 of the Settlement Proposal for RP-2000-0040. The mechanism was subsequently modified and approved by the Board in RP-2002-0133 as described under Issue 4.2 of that Settlement Proposal and under issue 15.11 of the RP-2003-0203 Settlement Proposal.

The Application included the following information:

- (i) The recalculated utility price for the first quarter of Test Year 2007 is \$349.047/10³m³ (\$9.261/GJ @ 37.69 MJ/m³) as compared to the current utility price of \$381.692 /10³m³ (\$10.127/GJ @ 37.69 MJ/m³) for the fourth quarter of Test Year 2006. The new price as compared to the current price exceeds the 0.5 ¢/m³ price variance implementation threshold. EGDI therefore requested that the recalculated utility price should be the new utility price effective January 1, 2007.
- (ii) The estimated balance in the Purchased Gas Variance Account ("PGVA"), as of December 31, 2007, is a customer credit of \$46.26 million reflecting the existing utility price. The PGVA equates to a 0.8735 ¢/m³ credit for residential customers which will be in effect from January 1, 2007 to December 31, 2007 and is greater than the 0.5 ¢/m³ threshold. EGDI therefore proposes to clear the year-end balance by means of a sales service (credit) rider.
- (iii) The Company proposes to change the transportation service unit rates to reflect the agreement reached with respect to Issues 14.1 and 15.4 of the Board-approved Settlement Proposal in RP-2003-0203. January 1, 2007 is the fourth year of the proposed four year phase-in of the cost allocation and rate design changes approved in the proceeding. This has the effect of changing the load balancing rates for Rates 1, 6, 115, 135, and 170.
- (iv) For a typical residential customer on system gas with an annual consumption of 3,064 m³, the reduction in the transportation service unit rate amounts to an annual bill decrease of approximately \$10.00. A typical residential customer on direct purchase will see their total annual bill decrease by a similar amount.

The Application and supporting written evidence was provided to Interested Parties including the Intervenor of record in the EB-2005-0001/EB-2005-0437 proceeding. The Application also set out the dates for filing comments and the Company's reply to those comments.

Pursuant to the *Ontario Energy Board Act, 1998*, section 36(4.1), the Board has considered all deferral account balances related to the commodity cost of gas and is adjusting rates, as set out below, to dispose of the forecasted balance for the PGVA account.

The Board finds that the Company's rate proposal is appropriate in all respects with the exception of the proposal to have the rates deemed interim. The Board considers the current Enbridge rates proceeding (EB-2006-0034) to be the appropriate forum for this request.

THE BOARD THEREFORE ORDERS THAT:

1. The rates for Enbridge Gas Distribution Inc. pertaining to EB-2006-0195 which were effective October 1, 2006 shall be superceded by the rates as provided in the Company's Rate Handbook for EB-2006-0288 and contained in Appendix "A" attached to this Rate Order.
2. The rates shall be effective January 1, 2007 and shall be implemented in the Company's first billing cycle in January 2007. The rates indicated in the Company's Rate Handbook are final and Enbridge is ordered to file a revised Rate Handbook removing the reference to interim by December 22, 2006.
3. The utility price used in determining amounts to be recorded in the first quarter of Test Year 2007 Purchased Gas Variance Account shall be \$349.047/10³m³.
4. The appropriate form of customer notice as set out in Appendix "B" shall accompany each customer's first bill following the implementation of this Rate Order.
5. The parties for service shall be those on the List of Interested Parties attached as Appendix "C".
6. Any party eligible for an award of costs must file a claim with the Board and EGDI no later than January 4, 2007. Should EGDI have any comments concerning any of the claims, these concerns shall be forwarded to the Board and to the claimant by January 11, 2007. Any response to EGDI's comments must be filed with the Board and EGDI by January 18, 2007.
7. EGDI shall pay the costs of eligible intervenors upon receipt of the Board's cost order.

ISSUED at Toronto, December 20, 2006

GLOSSARY OF TERMS

In this Handbook of Rates and Distribution Services, each term set out below shall have the meaning set out opposite it:

Affiliated Gas Users: An Applicant for distribution services which is related to other Gas Users through the ownership of shares to which are attached more than fifty percent of the voting rights attached to all outstanding securities of each Gas User.

Annual Contract Demand ("ACD"): The volume of gas obtained by summing the Contract Demand applicable on each day of a contract year.

Annual Turnover Volume ("ATV"): The sum of the contracted volumes injected into and withdrawn from storage by an applicant within a contract year.

Annual Volume Deficiency: The difference between the Annual Minimum Volume and the volume actually taken in a contract year, if such volume is less than the Annual Minimum Volume.

Applicant: The party who makes application to the Company for one or more of the services of the Company and such term includes any party receiving one or more of the services of the Company.

Authorized Volume: The Contract Demand, less, in respect to a T-Service arrangement under the Large Volume Service Rates, the amount by which the Applicant's Mean Daily Volume exceeds the volume of gas delivered to the Company (the "Daily Delivered Volume), plus two percent (2%) and less the volume by which the Applicant has been ordered to curtail or discontinue the use of gas.

Back-stopping: A service whereby alternative supplies of gas may be available in the event that an Applicant's supply of gas is not available for delivery to the Company.

Billing Month: A period of approximately thirty (30) days following which the Company renders a bill to an applicant. The billing month is determined by the Company's monthly Reading and Billing Schedule such that there are four (4) winter and eight (8) summer billing months per year.

Board: Ontario Energy Board.

Bundled Service: A service in which the demand for natural gas at a Terminal Location is met by the Company utilizing whatever resources or combination of resources (pipeline capacity, load balancing, etc.) are available to the Company.

Buy/Sell Arrangement: An arrangement, the terms of which are provided for in one or more agreements to which one or more of an end user of gas (being a party that buys from the Company gas delivered to a Terminal Location), an affiliate of an end user and a marketer, broker or agent of an end user is a party and the Company is a party, and pursuant to which the Company agrees to buy from the end user or its affiliate a supply of gas and to sell to the

end user gas delivered to a Terminal Location served from the gas distribution network. The Company will not enter into any new buy/sell agreement after April 1, 1999.

Buy/Sell Price: A price specified in the Company's Rate Schedules which the Company will pay for each cubic metre of gas, based on a specified energy content, purchased pursuant to a Buy/Sell Arrangement in which the purchase takes place in Ontario.

Commodity Charge: A charge per unit volume of gas actually taken by the Applicant, as distinguished from a demand charge which is based on the maximum daily volume an Applicant has the right to take.

Company: Enbridge Gas Distribution Inc.

Contract Demand: A contractually specified volume of gas applicable to service under a particular Rate Schedule which is the maximum volume of gas the Company is required to deliver to an Applicant on a daily basis under a Service Contract.

Cubic Metre ("m³"): That volume of gas which at a temperature of 15 degrees Celsius and at an absolute pressure of 101.325 kilopascals ("kPa") occupies one cubic metre. "10³m³" means 1,000 cubic metres.

Curtailment: An interruption in an Applicant's gas supply at a Terminal Location resulting from compliance with a request or an order by the Company to discontinue or curtail the use of gas.

Curtailment Delivered Supply: An additional volume of gas, in excess of the Applicant's MDV and determined by mutual agreement between the Applicant and the Company, which is Nominated and delivered by or on behalf of the Applicant to a point of interconnection with the Company's distribution system on a day of Curtailment.

Customer Charge: A monthly fixed charge that reflects being connected to the gas distribution system and is not related to volume consumed.

Daily Capacity Repurchase Quantity: A contractually agreed upon quantity representing an estimate of the Applicant's average daily gas usage during the five highest demand days during a year.

Daily Delivered Volume: The volume of gas recognized by the Company as having been delivered by an Applicant to the Company on a day. This volume will be the sum of:

- a) the volume of gas delivered under Intra-Alberta transportation arrangements, if any, plus;
- b) the volume of gas delivered under FT transportation arrangements, if any, plus;
- c) the FST portion, if any, of an Applicant's Mean Daily Volume, multiplied by the ratio of the Applicant's actual deliveries under FST transportation arrangements to the Applicant's pro rata share of the total FST volume tendered to the Company by TCPL on that day.

Daily Gas Quantity: The volume of natural gas taken on a day at a Terminal Location as measured by daily metering equipment or,

where the Company does not own and maintain daily metering equipment at a Terminal Location, the volume of gas taken within a billing period divided by the number of days in the billing period.

Dedicated Service: An Unbundled Service provided through a gas distribution pipeline that is initially constructed to serve a single customer, and for which the volume of gas is measured through a billing meter that is directly connected to a third party transporter or other third party facility, when service commences.

Delivery Charge: A component of the rate schedule through which the Company recovers its operating costs.

Demand Charge: A fixed monthly charge which is applied to the Contract Demand specified in a Service Contract. It represents the charges for reserved capacity in the distribution system.

Demand Overrun: The amount of gas taken at a Terminal Location exceeding the Contract Demand.

Direct Purchase: Natural gas supply purchase arrangements transacted directly between two or more parties, who are producers, brokers, or agents or end users, at negotiated prices.

Disconnect and Reconnect Charges: The charges levied by the Company for disconnecting or reconnecting an Applicant from or to the Company's distribution system.

Diversions: Delivery of gas on a day to a delivery point different from the normal delivery point specified in a Service Contract.

Firm Service: A service for a continuous supply of gas without curtailment, except under extraordinary circumstances.

Firm Service Tendered ("FST"): A transportation service offered by TransCanada PipeLines Limited ("TCPL") for the transport of gas volumes from Western Canada to Ontario. This service provides for firm transportation of a total annual volume, but daily and seasonal transportation may vary at the discretion of TCPL. This service may be available to be used by Applicants in conjunction with Ontario Buy/Sell and Ontario T-service arrangements, or by the Company in conjunction with Western Buy/Sell or T-service arrangements.

Firm Transportation ("FT"): Firm Transportation service offered by TCPL for the transport of gas volumes from Western Canada to Ontario. This service may be available to be used by Applicants in conjunction with Ontario Buy/Sell and Ontario T-service arrangements, or by the Company in conjunction with Western Buy/Sell or T-service arrangements.

Force Majeure: A contract clause intended to excuse one or more parties from their obligations under a contract, in situations where performance is frustrated by unusual or severe circumstances beyond their control such as flood, fire, war, or prolonged labour strike.

Gas: Natural Gas.

Gas Purchase Agreement: A written agreement pursuant to which the Company agrees to purchase gas from an Applicant as part of a Buy/Sell Arrangement.

Gas Distribution Network: The physical facilities owned by the Company and utilized to contain, move and measure natural gas.

Gas Supply Charge: A charge for the gas commodity purchased by the applicant.

Gas Supply Load Balancing Charge: A charge in the rate schedules where the Company recovers the cost of transportation of gas.

General Service Rates: The Rate Schedules applicable to those Bundled Services for which a specific contract between the Company and the Applicant is not generally required. The General Service Rates include Rates 1, 6, and 9 of the Company.

Gigajoule ("GJ"): See Joule.

Hourly Demand: A contractually specified volume of gas applicable to service under a particular Rate Schedule which is the maximum volume of gas the Company is required to deliver to an Applicant on a hourly basis under a Service Contract.

Imperial Conversion Factors:

Volume:
1,000 cubic feet (cf) = 1 Mcf
= 28.32784 cubic metres (m³)
1 billion cubic feet (cf) = 28.32784 10⁶m³

Pressure:
1 pound force per square inch (p.s.i.) = 6.894757 kilopascals (kPa)
1 inch Water Column (in W.C.) (60°F) = 0.249 kPa (15.5°C)
1 standard atmosphere = 101.325 kPa

Energy:
1 million British thermal units = 1 MMBtu
= 1.054615 gigajoules (GJ)
948,213.3 Btu = 1 GJ

Monetary Value:
\$1 per Mcf = \$0.03530096 per m³
\$1 per MMBtu = \$0.9482133 per GJ

Interruptible Service: Gas service which is subject to curtailment for either capacity and/or supply reasons, at the option of the Company.

Intra-Alberta Service: Firm transportation service on the Nova pipeline system under which volumes are delivered to an Intra-Alberta point of acceptance.

Joule ("J"): The amount of work done when the point of application of a force of one newton is displaced a distance of one metre in the direction of the force. One megajoule ("MJ") means 1,000,000 joules; one gigajoule ("GJ") means 1,000,000,000 joules.

Large Volume Service Rates: The Rate Schedules applicable for Bundled Service exceeding 340,000 cubic metres of gas per year

Issued: 2007-01-01
Replaces: 2006-10-01

and for which a specific contract between the Company and the Applicant is required. The Large Volume Service Rates include Rates 100, 110, 115, 135, 145, 170, and 200.

Load-Balancing: The balancing of the gas supply to meet demand. Storage and other peak supply sources, curtailment of interruptible services, and diversions from one delivery point to another may be used by the Company.

Make-up Volume: A volume of gas nominated and delivered, pursuant to mutually agreed arrangements, by an Applicant to the Company for the purpose of reducing or eliminating a net debit balance in the Applicant's Banked Gas Account.

Mean Daily Volume: The volume of gas which an Applicant who delivers gas to the Company, under a Buy/Sell or Bundled T-Service arrangement, agrees to deliver to the Company each day in the term of the arrangement. The Mean Daily Volume may be composed of volumes transported under Intra-Alberta, and/or FT, and/or FST transportation arrangements.

Metric Conversion Factors:

Volume:

1 cubic metre (m ³)	=	35.30096 cubic feet (cf)
1,000 cubic metres	=	10 ³ m ³
	=	35,300.96 cf
	=	35.30096 Mcf
28.32784 m ³	=	1 Mcf

Pressure:

1 kilopascal (kPa)	=	1,000 pascals
	=	0.145 pounds per square inch (p.s.i.)
101.325 kPa	=	one standard atmosphere

Energy:

1 megajoule (MJ)	=	1,000,000 joules
	=	948.2133 British thermal units (Btu)
1 gigajoule (GJ)	=	948,213.3 Btu
1.054615 GJ	=	1 MMBtu

Monetary Value:

\$1 per 10 ³ m ³	=	\$0.02832784 per Mcf
\$1 per gigajoule	=	\$1.054615 per MMBtu

Natural Gas: Natural and/or residue gas comprised primarily of methane.

Nominated Volume: The volume of gas which an Applicant has advised the Company it will deliver to the Company in a day.

Nominate, Nomination: The procedure of advising the Company of the volume which the Applicant will be delivering on a daily basis to the Company.

Nominations: Statements by Applicants of the volume of gas they expect to deliver to the Company in a day.

Ontario Energy Board: An agency of the Ontario Government which, amongst other things, approves the Company's Rate

Schedules (Part V of this HANDBOOK) and the matters described in Parts III and IV of this HANDBOOK.

Overrun Gas: That amount of gas taken at a Terminal Location exceeding the Authorized Volume.

Point of Acceptance: The point at which the Company accepts delivery of a supply of natural gas for transportation to, or purchase from, the Applicant.

Rate Schedule: A numbered rate of the Company as fixed or approved by the Board and in effect from time to time.

Removal Permit: A permit issued by a producing Province and authorized by the Government of such Province that allows the removal of gas from the Province.

Required Orders: Such orders or other evidence of authorization necessary to carry into effect a Direct Purchase arrangement.

Sales Service: A service of the Company in which the Company acquires and sells to the Applicant the Applicant's natural gas requirements.

Service Contract: An agreement between the Company and the Applicant which describes the responsibilities of each party in respect to the arrangements for the Company to provide Sales Service or Transportation Service to one or more Terminal Locations.

Supply Overrun: For Bundled Service, shall mean overrun gas where the Authorized Volume is less than or equal to the Contract Demand. For Unbundled Service, shall be as set out in the applicable Rate Schedule.

T-Service: Transportation Service.

Terminal Location: The building or other facility of the Applicant at or in which natural gas will be used by the Applicant.

Transportation Service: A service in which the Company does not own the gas to be delivered to an Applicant at a Terminal Location.

Unbundled Service: A service in which the demand for natural gas at a Terminal Location is met by the level of separate services (transportation, load balancing/storage) contracted to be available to the Applicant.

Western Canada Buy Price: The price per cubic metre which the Company would pay for gas (with a heating value of 37.80 megajoules/cubic metre) under its Gas Purchase Agreements which provide for the purchase of gas from a customer who delivers gas to the Company in Western Canada and where such deliveries are effected at the interconnection (at or nearest to Burstall, Saskatchewan) of the facilities of NOVA Corporation of Alberta and TransCanada PipeLines Limited.

PART II

RATES AND SERVICES AVAILABLE

The provisions of this PART II are intended to provide a general description of services offered by the Company and certain matters relating thereto. Such provisions are not definitive or comprehensive as to their subject matter and may be changed by the Company at any time without notice.

SECTION A - INTRODUCTION

1. In Franchise Services

Enbridge Gas Distribution provides in franchise services for the transportation of natural gas from the point of its delivery to Enbridge Gas Distribution to the Terminal Location at which the gas will be used. The natural gas to be transported may be owned by the Applicant for service or by the Company. In the latter case, it will be sold to the customer at the outlet of the meter located at the Terminal Location.

Applicants may elect to have the Company provide all-inclusively the services which are mutually agreed to be required or they may select (from the 300 series of rates, and Rate 125) only the amounts of those services which they consider they need.

The all-inclusive services are provided pursuant to Rates 1, 6 and 9, ("the General Service Rates") and Rates 100, 110, 115, 135, 145, and 170 ("the Large Volume Service Rates"). Individual services are available under Rates 125, 300, 305, 310, and 315 ("the Unbundled Service Rates").

Service to residential locations is provided pursuant to Rate 1.

Service which may be interrupted at the option of the Company is available, at rates lower than would apply for equivalent service under a firm rate schedule, pursuant to Rates 145, 170 and 305. Under all other rate schedules, service is provided upon demand by the Applicant, i.e., on a firm service basis.

2. Ex-Franchise Services

Enbridge Gas Distribution provides ex-franchise services for the transportation of natural gas through its distribution system to a point of interconnection with the distribution system of other distributors of natural gas. Such service is provided pursuant to Rate 200 and provides for the bundled transportation of gas owned by the Company, owned by customers of that distributor, or owned by that distributor.

For the purposes of interpreting the terms and conditions contained in this Handbook of Rates and Distribution Services the ex - franchise distributor shall be considered to be the applicant for the transportation of its customer owned gas and shall assume all the

obligations of transportation as if it owned the gas.

Nominations for transportation service must specify whether the volume to be transported is to displace firm or interruptible demand or general service.

In addition, the Company provides Compression, Storage, and Transmission services on its Tecumseh system under Rates 325, 330 and 331.

SECTION B - DIRECT PURCHASE ARRANGEMENTS

Applicants who purchase their natural gas requirements directly from someone other than the Company or who are brokers or agents for an end user, may arrange to transport gas on the Company's distribution network in conjunction with either an Ontario or a Western Canada Buy/Sell Arrangement or pursuant to an Ontario Delivery Transportation Service Arrangement, whether Bundled or Unbundled, or a Western Bundled Transportation Service Arrangement.

A. Ontario Buy/Sell Arrangement

In an Ontario Buy/Sell Arrangement the Applicant delivers gas to a contractually agreed-upon point in Ontario. Such deliveries may be under either FT- or FST-type transportation arrangements, as available. At the agreed-upon point of delivery, the Company purchases the gas from the Applicant at a price determined from the Buy/Sell Price specified in Rider 'B' of the Rate Schedules. The Company will not be entering into any new Ontario buy/sell arrangements after April 1, 1999.

B. Western Canada Buy/Sell

In a Western Canada Buy/Sell Arrangement the Applicant delivers gas to a point in Western Canada which connects with the transmission pipeline of TransCanada PipeLines Limited. At that point, the Company purchases the gas from the Applicant at a price specified in Rider 'B' of the rate schedules less the costs for transmission of the gas from the point of purchase to a point in Ontario at which the Company's gas distribution network connects with a transmission pipeline system. The Company will not be entering into any new Western Canada buy/sell arrangements after April 1, 1999.

C. Ontario Delivery T-Service Arrangements

In an Ontario Delivery T-Service Arrangement the Applicant delivers gas, to a contractually agreed-upon point in Ontario.

Such deliveries may be under either FT- or FST-type transportation arrangements, as available. Delivery from the point of direct interconnection with the Company's gas distribution network to a Terminal Location served from the Company's gas distribution network may be obtained by the Applicant either under the Bundled Service Rate Schedules or under the Unbundled Service Rate

Issued: 2007-01-01
Replaces: 2006-10-01

Schedules.

(i) Bundled T-Service

Bundled T-Service is so called because all of the services required by the Applicant (delivery and load balancing) are provided for the prices specified in the applicable Rate Schedule. In a Bundled T-Service arrangement the Applicant contracts to deliver each day to the Company a Mean Daily Volume of gas. Fluctuations in the demand for gas at the Terminal Location are balanced by the Company.

(ii) Unbundled T-Service

The Unbundled Service Rates allow an Applicant to contract for only such kinds of service as the Applicant chooses. The potential advantage to an Applicant is that the chosen amounts of service may be less than the amounts required by an average customer represented in the applicable Rate Schedule, in which case the Applicant may be able to reduce the costs otherwise payable under Bundled T-Service.

D. Western Delivery T-Service Arrangement

In a Western Delivery T-Service Arrangement the Applicant contracts to deliver each day to a point on the TransCanada PipeLines Ltd. transmission system in Western Canada a Mean Daily Volume of gas plus fuel gas. Delivery from that point to the Terminal Location is carried out by the Company using its contracted capacity on the TransCanada PipeLines Limited. system and its gas distribution network. Unbundled T-Service in Ontario is not available with the Western Delivery Option.

An Applicant desiring to receive Transportation Service or to establish a Buy/Sell Arrangement must first enter into the applicable written agreements with the Company.

PART III

TERMS AND CONDITIONS APPLICABLE TO ALL SERVICES

The provisions of this PART III are applicable to, and only to, Sales Service and Transportation Service. (That is, they do not apply to Gas Purchase Agreements.)

SECTION A - AVAILABILITY

Unless otherwise stated in a rate schedule, the Company's rates and services are available throughout the entire franchised area serviced by the Company. Transportation service and/or sales service will be provided subject to the Company having the capacity in its gas distribution network to provide the service requested. When the Company is requested to supply the natural gas to be delivered, service shall be available subject to the Company having

available to it a supply of gas adequate to meet the requirement without jeopardizing the supply to its existing customers.

Service shall be made available after acceptance by the Company of an application for service to a Terminal Location at which the natural gas will be used.

SECTION B - ENERGY CONTENT

The price of natural gas sold at a Terminal Location is based on the assumption that each cubic metre of such natural gas contains a certain number of megajoules of energy which number is specified in the Rate Schedules. Variations in cost resulting from the energy content of the gas actually delivered to the Company by its supplier(s) differing from the assumed energy content will be recorded and used to adjust future bills. Such adjustments shall be made in accordance with practices approved from time to time by the Ontario Energy Board.

SECTION C - SUBSTITUTION PROVISION

The Company may deliver gas from any standby equipment provided that the gas so delivered shall be reasonably equivalent to the natural gas normally delivered.

SECTION D - BILLS

Bills will be mailed or delivered monthly or at such other time period as set out in the Service Contract. Gas consumption to which the Company's rates apply will be determined by the Company either by meter reading or by the Company's estimate of consumption where meter reading has not occurred. The rates and charges applicable to a billing month shall be those applicable to the calendar month which includes the last day of the billing month.

SECTION E - MINIMUM BILLS

The minimum bill per month applicable to service under any particular Rate Schedule shall be the Customer Charge plus any applicable Contract Demand Charges for Delivery, Gas Supply Load Balancing, and Gas Supply and any applicable Direct Purchase Administration Charge, all as provided for in the applicable Rate Schedule.

In addition, for service under each of the Large Volume Service Rates, if in a contract year a volume of gas equal to or greater than the product of the Contract Demand multiplied by a contractually specified multiple of the Contract Demand ("Minimum Annual Volume") is not taken at the Terminal Location the Applicant shall pay, in addition to the minimum monthly bills, the amount obtained when the difference between the Minimum Annual Volume and the volume taken in the contract year (such difference being the Annual Volume Deficiency) is multiplied by the applicable Minimum Bill Charge(s) as provided for in the applicable Rate Schedule. Notwithstanding the foregoing, the Minimum Annual Volume shall be the greater of the Minimum Annual Volume as determined above and 340,000 m³.

Issued: 2007-01-01
Replaces: 2006-10-01

If gas deliveries to the Terminal Location have been ordered to be curtailed or discontinued in a contract year at the request of the Company and have been curtailed or discontinued as ordered, the Minimum Annual Volume shall be reduced for each day of curtailment or discontinuance by the excess of the Contract Demand over the volume delivered to the Terminal Location on such day.

SECTION F - PAYMENT CONDITIONS

Enbridge Gas Distribution charges are due when the bill is received, which is considered to be three days after the date the bill is rendered, or within such other time period as set out in the Service Contract. A late payment charge of 1.5% of all of the unpaid Enbridge Gas Distribution charges, including all applicable federal and provincial taxes, is applied to the account on the seventeenth (17th) day following the date the bill is due.

SECTION G - TERM OF ARRANGEMENT

When gas service is provided and there is no written agreement in effect relating to the provision of such service, the term for which such service is to continue shall be one year. The term shall automatically be extended for a further year immediately following the expiry of any initial one year term or one year extension unless reasonable notice to terminate service is given to the Company, in a manner acceptable to the Company, prior to the expiry of the term. An Applicant receiving such service who temporarily discontinues service in the initial one year term or any one year extension and does not pay all the minimum bills for the period of such temporary discontinuance of service shall, upon the continuance of service, be liable to pay an amount equal to the unpaid minimum bills for such period. When a written agreement is in effect relating to the provision of gas service, the term for which such service is to continue shall be as provided for in the agreement.

SECTION H - RESALE PROHIBITION

Gas taken at a Terminal Location shall not be resold other than in accordance with all applicable laws and regulations and orders of any governmental authority or Board having jurisdiction.

SECTION I - MEASUREMENT

The Company will install, operate and maintain at a Terminal Location such measurement equipment of suitable capacity and design as is required to measure the volume of gas delivered. Any special conditions for measurement are contained in the General Terms and Conditions which form part of each Service Contract.

SECTION J - RATES IN CONTRACTS

Notwithstanding any rates for service specified in any Service Contract, the rates and charges provided for in an applicable Rate Schedule shall apply for service rendered on and after the effective

date stated in such Rate Schedule until such Rate Schedule ceases to be applicable.

SECTION K - ADVICE RE: CURTAILMENT

The Company, if requested, will advise Applicants taking interruptible service of its estimate of service curtailment for the forthcoming winter. Such estimate will be provided as guidance to the Applicant in arranging for standby fuel requirements. Abnormal weather and/or other unforeseen events may cause greater or lesser curtailment of service than expected.

SECTION L - DAILY DELIVERED VOLUMES

For purposes including that of calculating daily overrun gas volumes, the Company will recognize as having been delivered to it on a given day the sum of:

- a) the volume of gas delivered under Intra-Alberta transportation arrangements, if any, plus;
- b) the volume of gas delivered under FT transportation arrangements, if any, plus;
- c) the FST portion, if any, of an Applicant's Mean Daily Volume, multiplied by the ratio of the Applicant's actual deliveries under FST transportation arrangements, to the Applicant's pro rata share of the total FST volume tendered to the Company by TCPL on that day.

SECTION M - AUTHORIZED OVERRUN GAS

If an Applicant requests permission to exceed the Authorized Volume for a day, and such authorization is granted, such gas shall constitute Authorized Overrun Gas. Such gas shall either be sold by the Company to the Applicant pursuant to the provisions of Rate 320 applicable on such day, or, at the Applicant's request and at the Company's sole discretion, be debited to the Applicant's Banked Gas Account.

SECTION N - UNAUTHORIZED OVERRUN GAS

If an Applicant for Transportation Service pursuant to the General Service Rates on any day delivers to the Company a Daily Delivered Volume less than the Mean Daily Volume, the volume of gas by which the Mean Daily Volume applicable to such day exceeds the Daily Delivered Volume delivered by the Applicant to the Company on such day shall constitute Unauthorized Overrun Gas and shall be deemed to have been taken and purchased on such day. The rate applicable to such volume shall be 150% of the average price on each day on which an overrun occurred for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and the EDA delivery areas respectively.

Unauthorized Overrun Gas for a day applicable to a Service Contract with an Applicant for service under the Large Volume Service Rates is:

(a) the volume of gas by which the Daily Gas Quantity under the Service Contract on such day exceeds the Authorized Volume for such day, if any
plus

(b) if the day is in the months of December to March inclusive for an Applicant taking service on Rate 135, or if the day is a day on or in respect of which the Applicant has been requested in accordance with the Service Contract to curtail or discontinue the use of gas and the Service Contract is in whole or in part for interruptible Transportation Service, the volume of gas, if any, by which

(i) the Mean Daily Volume set out in the Service Contract and is applicable to such day exceeds

(ii) the Daily Delivered Volume delivered by the Applicant to the Company on such day, which excess volume of gas shall be deemed to have been taken and purchased by the Applicant on such day.

The Applicant shall pay the Company for Unauthorized Overrun Gas at the rate applicable to Unauthorized Overrun Gas as provided for in the Rate Schedule(s) applicable to the Service Contract.

Unauthorized Overrun Gas for a day applicable to a Service Contract with an Applicant for service under Rate 125, Rate 300 or Rate 305 shall be determined from the provisions of the applicable Rate Schedule. The Applicant shall pay the Company for Unauthorized Overrun Gas at the rate applicable to Unauthorized Overrun Gas as provided for in the Rate Schedule(s) applicable to the Service Contract.

PART IV

TERMS AND CONDITIONS – DIRECT PURCHASE ARRANGEMENTS

Any Applicant, at the time of applying for service, may elect, in and for the term of any Service Contract, to deliver its own natural gas requirements to the Company and the Company shall deliver gas to a Terminal Location as required by the Applicant, subject to the terms and conditions contained in the applicable Rate Schedule and in the Service Contract. For Buy/Sell Arrangements and Bundled T-Service the deliveries by the Applicant to the Company shall be at the Applicant's estimated mean daily rate of consumption.

Backstopping of an Applicant's natural gas supply for Transportation Service arrangements will be available pursuant to Rate 320 subject to the Company's ability to do so using reasonable commercial efforts. Gas Purchase Agreements in respect to Buy/Sell

Arrangements shall specify terms and conditions available to the Company to alleviate certain consequences of the Applicant's failure to deliver the required volume of gas.

The following Terms and Conditions shall apply to, and only to, Transportation Service and/or Gas Purchase Agreements.

SECTION A - NOMINATIONS

An Applicant delivering gas to the Company pursuant to a contract is responsible for advising the Company, by means of a contractually specified Nomination procedure, of the daily volume of gas to be delivered to the Company by or on behalf of the Applicant.

An initial daily volume must be Nominated by a contractually specified time before the first day on which gas is to be delivered to the Company. Any Nomination, once accepted by the Company, shall be considered as a standing nomination applicable to each subsequent day in a contract term unless specifically varied by written notice to the Company.

A contract may specify certain contractual provisions that are applicable in the event that an Applicant either fails to advise of a revised daily nomination or fails to deliver the daily volume so nominated.

A Nominated Volume in excess of the Applicant's Maximum Daily Volume as specified in the Service Contract will not be accepted except as specifically provided for in any contract.

SECTION B - OBLIGATION TO DELIVER

During any period of curtailment or discontinuance of Bundled interruptible Transportation Service as ordered by the Company, any Applicant supplying its own gas requirements must, on such day, deliver to the Company the Mean Daily Volume of gas specified in any Service Contract.

An Applicant taking service on Rate 135 must deliver to the Company the Mean Daily Volume of gas specified in the Service Contract in the months of December to March, inclusive.

Applicants taking service on General Service rates pursuant to a Direct Purchase Agreement must, on each day in the term of such agreement, deliver to the Company the Mean Daily Volume of gas specified in such agreement.

SECTION C - DIVERSION RIGHTS

Subject to compliance with the Terms and Conditions of all Required Orders, an Applicant who has entered into a Transportation Service Agreement or Agreements which provide(s) for deliveries to the Company for more than one Terminal Location shall have the right, on such terms and only on such terms as are specified in the applicable Transportation Service Agreement, to divert deliveries from one or more contractually specified Terminal Locations to other contractually specified Terminal Locations.

Issued: 2007-01-01
Replaces: 2006-10-01

Page 7 of 9

SECTION D - BANKED GAS ACCOUNT

For T-Service Applicants, the Company shall keep a record ("Banked Gas Account") of the volume of gas delivered by the Applicant to the Company in respect of a Terminal Location (credits) and of the volume of gas taken by the Applicant at the Terminal Location (debits). (Any volume of gas sold by the Company to the Applicant in respect to the Terminal Location shall not be debited to the Banked Gas Account). The Company shall periodically report to the Applicant the net balance in the Applicant's Banked Gas Account.

SECTION E - OFFSET OF BANKED GAS ACCOUNTS

A. The following Terms and Conditions shall apply to Bundled T-Service:

If the Company maintains two or more Banked Gas Accounts (each of which is in respect of a contract year ending on the same date) for an Applicant, or one or more Banked Gas Accounts (each of which is in respect of a contract year ending on the same date) for each of an Applicant and an affiliate of the Applicant, then, in respect of any or all such Banked Gas Accounts as the Applicant chooses, by written notice to the Company within thirty (30) days of the end of such contract year or any later date which the Company accepts or agrees to in writing, the Applicant, subject to the terms hereof, shall combine

- (i) the net debit balances, if any, of such Banked Gas Accounts in a Combined Banked Gas Account as a debit; and
- (ii) the net credit balances, if any, of such Banked Gas Accounts in such Combined Banked Gas Account as a credit

and for purposes of applying the provisions which follow and appear under the heading "DISPOSITION OF BANKED GAS ACCOUNT BALANCES", all such Banked Gas Accounts (other than the Combined Banked Gas Account) shall be deemed to have no net debit balance or net credit balance and the Combined Banked Gas Account shall be deemed to be a Banked Gas Account of the Applicant. Under no circumstances shall the Combined Bank Gas Account balance to be carried forward exceed twenty (20) times the aggregate of the Mean Daily Volumes applicable to the Terminal Locations identified in the Applicant's notice to the Company requesting the combination of such Banked Gas Accounts. Notwithstanding the foregoing, without the written consent of the Company, the provisions of this paragraph shall not be applicable to the Applicant unless:

- (i) all applicable Required Orders are in effect and all the provisions hereof relating to Banked Gas Accounts may be applied and performed without contravening any such Required Order or applicable law; and ,
- (ii) if a Combined Banked Gas Account reflects the net debit balance or net credit balance of a Banked Gas Account of an

affiliate of an Applicant, such affiliate consents to the same and agrees, in such form as the Company requires, that the balance in such Banked Gas Account has been eliminated and that such affiliate releases all rights that such affiliate had, or may have had, with respect to such Banked Gas Account.

B. The following Terms and Conditions shall apply to Unbundled T-Service:

The Terms and Conditions for offset of Banked Gas Accounts shall be as specified in the applicable Service Contracts. Notwithstanding such Terms and Conditions, an Applicant shall not be permitted to combine Banked Gas Accounts pertaining to Bundled and Unbundled T-Service respectively, under any circumstances.

SECTION F - DISPOSITION OF BANKED GAS ACCOUNT BALANCES

A. The following Terms and Conditions shall apply to Bundled T-Service:

(a) At the end of each contract year, disposition of any net debit balance in the Banked Gas Account shall be made as follows:

The Applicant, by written notice to the Company within thirty (30) days of the end of the contract year, may elect to return to the Company, in kind, during the one hundred and eighty (180) days following the end of the contract year that portion of any debit balance in the Banked Gas Account as at the end of the contract year not exceeding a volume of twenty times the Applicant's Mean Daily Volume by the Applicant delivering to the Company on days agreed upon by the Company and the Applicant a volume of gas greater than the Mean Daily Volume, if any, applicable to such day under a Service Contract. Any volume of gas returned to the Company as aforesaid shall not be credited to the Banked Gas Account in the subsequent contract year. Any debit balance in the Banked Gas Account as at the end of the contract year which is not both elected to be returned, and actually returned, to the Company as aforesaid shall be deemed to have been sold to the Applicant and the Applicant shall pay for such gas within ten (10) days of the rendering of a bill therefor. The rate applicable to such gas shall be 120% of the average price over the contracted year, based on the published index price for the Monthly AECO/NIT supply adjusted for Nova's AECO to Empress transportation tolls and compressor fuel costs.

(b) A credit balance in the Banked Gas Account as at the end of the contract year must be eliminated in one or more of the following manners, namely:

- (i) Subject to clause (ii), if the Applicant continues to take service from the Company under a contract pursuant to which the Applicant delivers gas to the Company and the Applicant so elects (by written notice to the Company within thirty (30) days of the end of the contract year), that portion of such balance

which the Applicant stipulates in such written notice and which does not exceed twenty times the Applicant's Mean Daily Volume may be carried forward as a credit to the Banked Gas Account for the next succeeding contract year. Any volume duly elected to be carried forward under this clause shall, and may only, be reduced within the period of one hundred and eighty (180) days ("Adjustment Period") immediately following the contract year, by the Applicant delivering to the Company, on days in the Adjustment Period agreed upon by the Company and the Applicant ("Adjustment Days"), a volume of gas less than the Mean Daily Volume applicable to such day under a Service Contract. Subject to the foregoing, the credit balance in the Banked Gas Account shall be deemed to be reduced on each Adjustment Day by the volume ("Daily Reduction Volume") by which the Mean Daily Volume applicable to such day exceeds the greater of the volume of gas delivered by the Applicant on such day and the Nominated Volume for such day which was accepted by the Company.

- (ii) Any portion of a credit balance in the Banked Gas Account which is not eligible to be eliminated in accordance with clause (i), or which the Applicant elects (by written notice to the Company within thirty (30) days of the end of the contract year) to sell under this clause, shall be deemed to have been tendered for sale to the Company and the Company shall purchase such portion at a price per cubic metre of eighty percent (80%) of the average price over the contract year, based on the published index price for the Monthly AECO/NIT supply adjusted for Nova's AECO to Empress transportation tolls and compressor fuel costs, less the average Ontario Transportation Service Credit over the contract year. Any volume of gas deemed to have been so tendered for sale shall be deemed to have been eliminated from the credit balance of the Banked Gas Account.

During the Adjustment Period the Company shall use reasonable efforts to accept the Applicant's reduced gas deliveries. Any credit balance in the Banked Gas Account not eliminated as aforesaid in the Adjustment Period shall be forfeited to, and be the property of, the Company, and such volume of gas shall be debited to the Banked Gas Account as at the end of the Adjustment Period.

Subject to its ability to do so, the Company will attempt to accommodate arrangements which would permit adjustments to Banked Gas Account balances at times and in a manner which are mutually agreed upon by the Applicant and the Company.

B. The following Terms and Conditions shall apply to Unbundled T-Service:

The Terms and Conditions for disposition of Banked Gas Account balances shall be as specified in the applicable Service Contracts.

Issued: 2007-01-01
Replaces: 2006-10-01

APPLICABILITY:

To any Applicant needing to use the Company's natural gas distribution network to have transported a supply of natural gas to a residential building served through one meter and containing no more than six dwelling units ("Terminal Location").

RATE:

Rates per cubic metre assume an energy content of 37.69 MJ/m³.

	<u>Billing Month</u> January to December <u>December</u>
Monthly Customer Charge	\$11.25
Delivery Charge per cubic metre	
For the first 30 m ³ per month	14.3051 ¢/m³
For the next 55 m ³ per month	13.6778 ¢/m³
For the next 85 m ³ per month	13.1863 ¢/m³
For all over 170 m ³ per month	12.8203 ¢/m³
System Sales Gas Supply Charge per cubic metre (If applicable)	31.4844 ¢/m³
Buy/Sell Sales Gas Supply Charge per cubic metre (If applicable)	31.4664 ¢/m³

The rates quoted above shall be subject to the Gas Inventory Adjustment contained in Rider "C" and the Revenue Adjustment Rider contained in Rider "E". Also, meter readings will be adjusted by the Atmospheric Pressure Factor relevant to the customer's location as shown in Rider "F". In addition, the Periodic Contribution Charge described in Rider "D" may be applicable. The Gas Supply Charge is applicable if the Applicant is not providing its own supply of natural gas for transportation.

DIRECT PURCHASE ARRANGEMENTS:

Rider "A" or Rider "B" shall be applicable to Applicants who enter into Direct Purchase Arrangements under this Rate Schedule.

TERMS AND CONDITIONS OF SERVICE:

The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after January 1, 2007 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after January 1, 2007 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
January 1, 2007	January 1, 2007	INTERIM EB-2006-0288	October 1, 2006	Handbook 18

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation, to a single terminal location ("Terminal Location"), of a specified maximum daily volume (Contract Demand) of natural gas of not less than 600,000 cubic metres.

CHARACTER OF SERVICE:

Service shall be firm except for events as specified in the Service Contract including force majeure. The Applicant shall not take a volume of gas at the Terminal Location that varies, in any day, by more than two percent (2%) from the Delivered Volume. The Contract Demand shall be 24 times the Hourly Demand, and the Applicant shall not exceed the Hourly Demand.

RATE:

The following rates and charges, as applicable, shall apply for deliveries to the Terminal Location.

Demand Charge

Per cubic metre of Contract Demand per month **8.3768 ¢/m³**

Direct Purchase Administration Charge **\$50.00**

Forecast Unaccounted For Gas Percentage **0.3%**

AUTHORIZED DEMAND OVERRUN:

The following Authorized Demand Overrun Rate is applied to any quantities of gas transported in excess of the Contract Demand. Overrun will be authorized by the Company at its sole discretion.

Automatic authorization of transportation overrun will be given in the case of dedicated Service to the Terminal Location provided that pipeline capacity is available and subject to a maximum volume as specified in the Service Contract.

Authorized Demand Overrun Rate **0.28 ¢/m³**

The Authorized Demand Overrun Rate may be applied to commissioning volumes at the Company's sole discretion, for a contractual period of not more than one year, as specified in the Service Contract.

MINIMUM BILL: See Terms and Conditions of Service

TERMS AND CONDITIONS OF SERVICE:

1. The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.
2. The Applicant is required to deliver to the Company on a daily basis the sum of: (a) the volume of gas to be delivered to the Applicant's Terminal Location; and (b) a volume of gas equal to the forecast unaccounted for gas percentage as stated above multiplied by (a). In the case of a Dedicated Service, the Unaccounted for Gas volume requirement is not applicable.
3. a) Any volume of gas taken by the Applicant on a day at the Terminal Location which exceeds the sum of:
 - i. any applicable Load Balancing Demand pursuant to Rate 310 and/or any applicable Storage Demand pursuant to Rate 315, plus

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 2 Handbook 19
January 1, 2007	January 1, 2007	INTERIM EB-2006-0288	October 1, 2006	

ii. the volume of gas delivered by the Applicant on that day shall constitute as Supply Overrun Gas.

Supply Overrun Gas up to a maximum of two percent (2%) of the volume delivered by the Applicant shall be debited to the Applicant's Banked Gas Account. Any remaining excess shall be classified as Unauthorized Supply Overrun Gas. In any instance of Unauthorized Supply Overrun, the customer shall purchase such gas at a price P_e , which is equal to 150% of the highest price, in effect for that day as defined below*.

b) Any volume of gas taken by the Applicant on a day at the Terminal Location which exceeds the Contract Demand shall be classified as Demand Overrun Gas.

In any instance in a contract year when the Applicant takes Unauthorized Demand Overrun Gas, the Applicant must adjust the Contract Demand to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively if necessary.

4. Any volume of gas delivered by the Applicant on any day in excess of the sum of:

- i. any applicable Load Balancing Demand pursuant to Rate 310 and/or applicable Storage Demand pursuant to Rate 315, plus
- ii. the volume of gas taken by the Applicant at the Terminal Location on that day shall be classified as Supply Underrun Gas.

Supply Underrun Gas up to a maximum of two percent (2%) of the volume delivered by the Applicant on that day shall be credited to the Applicant's Banked Gas Account. The Company would order the Applicant to dispose of any remaining excess of the Unauthorized Supply Underrun Gas. Failing such action by the Applicant, the Company would purchase the portion of Unauthorized Supply Underrun Gas in excess of 2% at a price P_u which is equal to fifty percent (50%) of the lowest price in effect on that day as defined below**.

* where the price, P_e , expressed in cents / cubic metre is defined as follows:

$$P_e = (P_m * E_r * 100 * 0.03769 / 1.054615) * 1.5$$

P_m = highest daily price in U.S. \$/mmBtu published in the Gas Daily, a Platts Publication, for that day under the column "Absolute", for the Niagara export point if the terminal location is in the CDA delivery area, and the Iroquois export point if the terminal location is in the EDA delivery area.

E_r = Noon day spot exchange rate expressed in Canadian dollars per U.S. dollar for such day quoted by the Bank of Canada in the following days Globe & Mail Publication.

1.054615 = Conversion factor from mmBtu to GJ.

0.03769 = Conversion factor from GJ to cubic metres.

** where the price P_u expressed in cents / cubic metre is defined as follows:

$$P_u = (P_l * E_r * 100 * 0.03769 / 1.054615) * 0.5$$

P_l = lowest daily price in U.S. \$/mmBtu published in the Gas Daily, a Platts Publication, for that day under the column "Absolute", for the Niagara export point if the terminal location is in the CDA delivery area, and the Iroquois export point if the terminal location is in the EDA delivery area.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after January 1, 2007. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195. Effective July 1, 2007, this rate schedule will be superceded by the rates approved in EB-2005-0551.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 2 of 2 Handbook 20
------------------------------------	---	--------------------------------------	--	----------------------------

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation, to a single terminal location ("Terminal Location"), of an annual supply of natural gas of not less than 340,000 cubic metres.

CHARACTER OF SERVICE:

Service shall be continuous (firm) except for events as specified in the Service Contract including force majeure. A maximum of five percent of the contracted annual volume may be taken by the Applicant in a single month during the months of December to March inclusively.

RATE:

Rates per cubic metre assume an energy content of 37.69 MJ/m³.

	Billing Month	
	December to March	April to November
Monthly Customer Charge	\$100.00	\$100.00
Delivery Charge		
For the first 14,000 m ³ per month	6.4972 ¢/m ³	1.7972 ¢/m ³
For the next 28,000 m ³ per month	5.2972 ¢/m ³	1.0972 ¢/m ³
For all over 42,000 m ³ per month	4.8972 ¢/m ³	0.8972 ¢/m ³
Gas Supply Load Balancing Charge	2.6987 ¢/m³	2.6987 ¢/m³
System Sales Gas Supply Charge per cubic metre (If applicable)	31.5282 ¢/m³	31.5282 ¢/m³
Buy/Sell Sales Gas Supply Charge per cubic metre (If applicable)	31.5102 ¢/m³	31.5102 ¢/m³

The rates quoted above shall be subject to the Gas Inventory Adjustment contained in Rider "C" and the Revenue Adjustment Rider contained in Rider "E". In addition, meter readings will be adjusted by the Atmospheric Pressure Factor relevant to the customer's location as shown in Rider "F". The Gas Supply Charge is applicable if the Applicant is not providing its own supply of natural gas for transportation.

DIRECT PURCHASE ARRANGEMENTS:

Rider "A" or Rider "B" shall be applicable to Applicants who enter into Direct Purchase Arrangements under this Rate Schedule.

UNAUTHORIZED OVERRUN GAS RATE:

When the Applicant takes Unauthorized Supply Overrun Gas, the Applicant shall purchase such gas at a rate of 150% of the average price on each day on which an overrun occurred for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively.

Failure to deliver a volume of gas equal to the Mean Daily Volume set out in the Service Contract during the months of December to March inclusive may result in the Applicant not being eligible for service under this rate in a subsequent contract period, at the Company's sole discretion.

SEASONAL CREDIT:

Rate per cubic metre of Mean Daily Volume from December to March \$ 0.77 /m³

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 2 Handbook 21
------------------------------------	---	--------------------------------------	--	----------------------------

SEASONAL OVERRUN CHARGE:

During the months of December through March inclusively, any volume of gas taken in a single month in excess of five percent of the annual contract volume (Seasonal Overrun Monthly Volume) will be subject to Seasonal Overrun Charges in place of both the Delivery and Gas Supply Load Balancing Charges. The Seasonal Overrun Charge applicable for the months of December and March shall be calculated as 2.0 times the sum of the Gas Supply Load Balancing Charge and the maximum Delivery Charge. The Seasonal Overrun Charge applicable for the months of January and February shall be calculated as 5.0 times the sum of the Load Balancing Charge and the maximum Delivery Charge.

Seasonal Overrun Charges:

<i>December and March</i>	18.3918 ¢/m³
<i>January and February</i>	45.9795 ¢/m³

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency (See Terms and Conditions of Service):	5.9920 ¢/m³
---	-------------------------------

TERMS AND CONDITIONS OF SERVICE:

The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after January 1, 2007 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 2 of 2 Handbook 22
------------------------------------	---	--------------------------------------	--	----------------------------

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation of a specified maximum daily volume of natural gas to a single terminal location ("Terminal Location") which can accommodate the total interruption of gas service as ordered by the Company exercising its sole discretion. Any Applicant for service under this rate schedule must agree to transport a minimum annual volume of 340,000 cubic metres.

CHARACTER OF SERVICE:

In addition to events as specified in the Service Contract including force majeure, service shall be subject to curtailment or discontinuance upon the Company issuing a notice not less than 72 hours prior to the time at which such curtailment or discontinuance is to commence. An Applicant may, by contract, agree to accept a shorter notice period (see Capacity Repurchase Rate).

RATE:

Rates per cubic metre assume an energy content of 37.69 MJ/m³.

	<u>Billing Month</u> <u>January</u> <u>to</u> <u>December</u> <u>\$100.00</u>
Monthly Customer Charge	
Delivery Charge	
For the first 14,000 m ³ per month	3.3075 ¢/m ³
For the next 28,000 m ³ per month	1.9485 ¢/m ³
For all over 42,000 m ³ per month	1.3895 ¢/m ³
Gas Supply Load Balancing Charge	3.9894 ¢/m ³
System Sales Gas Supply Charge per cubic metre (If applicable)	31.4733 ¢/m ³
Buy/Sell Sales Gas Supply Charge per cubic metre (If applicable)	31.4554 ¢/m ³

The rates quoted above shall be subject to the Gas Inventory Adjustment contained in Rider "C" and the Revenue Adjustment Rider contained in Rider "E". In addition, meter readings will be adjusted by the Atmospheric Pressure Factor relevant to the customer's location as shown in Rider "F". The Gas Supply Charge is applicable if the Applicant is not providing its own supply of natural gas for transportation.

DIRECT PURCHASE ARRANGEMENTS:

Rider "A" or Rider "B" shall be applicable to Applicants who enter into Direct Purchase Arrangements under this Rate Schedule.

CURTAILMENT CREDIT:

Rate for 16 hours of notice per cubic metre of Mean Daily Volume from December to March	\$ 0.50 /m ³
Rate for 72 hours of notice per cubic metre of Mean Daily Volume from December to March	\$ 0.11 /m ³

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 2 Handbook 23
------------------------------------	---	--------------------------------------	--	----------------------------

In addition, if the Applicant is supplying its own gas requirements, the gas delivered by the Applicant during the period of curtailment shall be purchased by the Company for the Company's use. The purchase price for such gas will be equal to the price that is reported for the month, in the first issue of the Natural Gas *Market Report* published by Canadian Enerdata Ltd. during the month, as the "current" "Avg." (i.e., average) "Alberta One-Month Firm Spot Price" for "AECO 'C' and Nova Inventory Transfer" in the table entitled "Domestic spot gas prices", adjusted for AECO to Empress transportation tolls and compressor fuel costs.

For the areas specified in Appendix A to this Rate Schedule, the Company's gas distribution network does not have sufficient physical capacity under current operating conditions to accommodate the provision of firm service to existing interruptible locations. For any location presently served or any new Applicant for service pursuant to this Rate Schedule in these areas, the Company shall purchase the rights to take service hereunder at 1.25 ¢/m³ per unit of Daily Capacity Repurchase Quantity.

UNAUTHORIZED OVERRUN GAS RATE:

When the Applicant takes Unauthorized Supply Overrun Gas, the Applicant shall purchase such gas at a rate of 150% of the average price on each day on which an overrun occurred for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively, and adjust the Contract Demand, effective on the next day, to the actual maximum daily taken.

The third instance of such failure in any contract year may result in the Applicant forfeiting the right to be served under this Rate Schedule. In such case service hereunder would cease, notwithstanding any Service Contract between the Company and the Applicant. Gas supply and/or transportation service would continue to be available to the Applicant pursuant to the provisions of the Company's Rate 6 until a Service Contract pursuant to another applicable Rate Schedule was executed.

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency
(See Terms and Conditions of Service):

7.2263 ¢/m³

RATE NUMBER: **300**

FIRM OR INTERRUPTIBLE DISTRIBUTION SERVICE

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation to a single Terminal Location of a specified maximum daily volume of natural gas. The Company reserves the right to limit service under this schedule to customers whose maximum contract demand does not exceed 600,000 m³. The Service under this rate requires Automatic Meter Reading (AMR) capability. Service under this schedule is firm unless a customer is currently served under interruptible distribution service or the Company, in its sole judgment, determines that existing delivery facilities cannot adequately serve the load on a firm basis.

The unitized Monthly Contract Demand Charge is also applicable to volumes delivered to any Applicant taking service under a Curtailment Delivered Supply contract with the Company. The unitized rate equals the applicable Monthly Contract Demand Charge times 12/365.

CHARACTER OF SERVICE:

The Service shall be continuous (firm) except for events specified in the Service Contract including force majeure. The Applicant is neither allowed to take a daily quantity of gas greater than the Contract Demand nor an hourly amount in excess of the Contract Demand divided by 24, without the Company's prior consent. Interruptible Distribution Service is provided on a best efforts basis subject to the events identified in the service contract including force majeure and, in addition, shall be subject to curtailment or discontinuance of service when the Company notifies the customer under normal circumstances 4 hours prior to the time that service is subject to curtailment or discontinuance. Under emergency conditions, the Company may curtail or discontinue service on one-hour notice. The Interruptible Service Customer is not allowed to exceed maximum hourly flow requirements as specified in Service Contract.

DISTRIBUTION RATES:

Monthly Customer Charge	\$500.00
Monthly Contract Demand Charge Firm	22.6710 ¢/m ³
Interruptible Service:	
Minimum Delivery Charge	0.3630 ¢/m ³
Maximum Delivery Charge	0.8944 ¢/m ³
Direct Purchase Administration Charge	\$50.00
Forecast Unaccounted For Gas Percentage	0.3%

Monthly Minimum Bill: The Monthly Customer Charge plus the Monthly Contract Demand Charge.

TERMS AND CONDITIONS OF SERVICE:

1. To the extent that this Rate Schedule does not specifically address matters set out in PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** then the provisions in those Parts shall apply, as contemplated therein, to service under this Rate Schedule.

2. **Unaccounted for Gas (UFG) Adjustment Factor:**

The Applicant is required to deliver to the Company on a daily basis the sum of: (a) the volume of gas to be delivered to the Applicant's Terminal Location; and (b) a volume of gas equal to the forecast unaccounted for gas percentage as stated above multiplied by (a).

3. **Nominations:**

Customer shall nominate gas delivery daily based on the gross commodity delivery required to serve the customer's daily load plus the UFG, net of No-Notice Storage Service provisions under Rate 315, if applicable. The amount of gas delivered under No-Notice Storage Service will also be reduced by the UFG adjustment factor for delivery to the customer's meter.

Customers may change daily nominations based on the nomination windows within a day as defined by the customer contract with TransCanada PipeLines (TCPL) or Union Gas Limited.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 6 Handbook 29
------------------------------------	---	--------------------------------------	--	----------------------------

Schedule of nominations under Rate 300 has to match upstream nominations. This rate does not allow for any more flexibility than exists upstream of the EGD gas distribution system. Where the customer's nomination does not match the confirmed upstream nomination, the nomination will be confirmed at the upstream value.

Customer may nominate gas to a contractually specified Primary Delivery Area that may be EGD's Central Delivery Area (CDA) or EGD's Eastern Delivery Area (EDA). The Company may accept deliveries at a Secondary Delivery Area such as Dawn, at its sole discretion. Quantities of gas nominated to the system cannot exceed Contract Demand, unless Make-up Gas or Authorized Overrun is permitted.

Customers with multiple Rate 300 contracts within a Primary Delivery Area may combine nominations subject to system operating requirements and subject to the Contract Demand for each Terminal Location. For combined nominations the customer shall specify the quantity of gas to each Terminal Location and the order in which gas is to be delivered to each Terminal Location. The specified order of deliveries shall be used to administer Load Balancing Provisions to each Terminal Location. When system conditions require delivery to a single Terminal Location only, nominations with different Terminal Locations may not be combined.

4. Authorized Demand Overrun:

The Company may, at its sole discretion, authorize consumption of gas in excess of the Contract Demand for limited periods within a month, provided local distribution facilities have sufficient capacity to accommodate higher demand. In such circumstances, customer shall nominate gas delivery based on the gross commodity delivery required to serve the customer's daily load, including quantities of gas in excess of the Contract Demand, plus the UFG. The Load Balancing Provisions and/or No-Notice Storage Service provisions under Rate 315 cannot be used for Authorized Demand Overrun. Failure to nominate gas deliveries to match Authorized Demand Overrun shall constitute Unauthorized Supply Overrun.

The rate applicable to Authorized Demand Overrun shall equal the applicable Monthly Demand Charge times 12/365 provided, however, that such service shall not exceed 5 days in any contract year. Requests beyond 5 days will constitute a request for a new Contract Demand level, with retroactive charges based on terms of Service Contract.

5. Unauthorized Demand Overrun:

Any gas consumed in excess of the Contract Demand and/or maximum hourly flow requirements, if not authorized, will be deemed to be Unauthorized Demand Overrun gas. Unauthorized Demand Overrun gas will establish a new Contract Demand and shall be subject to a charge equal to 120 % of the applicable monthly charge for twelve months of the current contract term, including retroactively based on terms of Service Contract. Unauthorized Demand Overrun gas shall also be subject to Unauthorized Supply Overrun provisions. Where a customer receives interruptible service hereunder and consumes gas during a period of interruption, such gas shall be deemed Unauthorized Supply Overrun. In addition to charges for Unauthorized Supply Overrun, interruptible customers consuming gas during a scheduled interruption shall pay a penalty charge of \$18.00 per m³.

6. Unauthorized Supply Overrun:

Any volume of gas taken by the Applicant on a day at the Terminal Location which exceeds the sum of:

- i. any applicable Load Balancing Provision pursuant to Rate 300 and/or provisions of Rate 315, plus
- ii. the volume of gas delivered by the Applicant on that day shall constitute Unauthorized Supply Overrun Gas.

The Company may also deem volumes of gas to be Unauthorized Supply Overrun gas in other circumstances, as set out in the Load Balancing Provisions of Rate 300.

Any volume of gas taken by the Applicant under Curtailment Delivered Supply contract which exceeds the volume of gas delivered by the Applicant on that day shall constitute Unauthorized Supply Overrun Gas.

Any gas deemed to be Unauthorized Overrun gas shall be purchased by the customer at a price (Pe), which is equal to 150% of the highest price in effect for that day as defined below*.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 2 of 6 Handbook 30
------------------------------------	---	--------------------------------------	--	----------------------------

RATE NUMBER: **300**

7. Unauthorized Supply Underrun:

Any volume of gas delivered by the Applicant on any day in excess of the sum of:

- i. any applicable Rate 300 Load Balancing Provision pursuant to Rate 300 and/or provisions of Rate 315, plus
- ii. the volume of gas taken by the Applicant at the Terminal Location on that day shall be classified as Supply Underrun Gas.

The Company may also deem volumes of gas to be Unauthorized Supply Underrun gas in other circumstances, as set out in the Load Balancing Provisions of Rate 300.

Any gas deemed to be Unauthorized Supply Underrun Gas shall be purchased by the Company at a price (P_u) which is equal to fifty percent (50%) of the lowest price in effect for that day as defined below**.

* where the price P_e expressed in cents / cubic metre is defined as follows:

$$P_e = (P_m * E_r * 100 * 0.03769 / 1.054615) * 1.5$$

P_m = highest daily price in U.S. \$/mmBtu published in the Gas Daily, a Platts Publication, for that day under the column "Absolute", for the Niagara export point if the terminal location is in the CDA delivery area, and the Iroquois export point if the terminal location is in the EDA delivery area.

E_r = Noon day spot exchange rate expressed in Canadian dollars per U.S. dollar for such day quoted by the Bank of Canada in the following days Globe & Mail Publication.

1.054615 = Conversion factor from mmBtu to GJ.

0.03769 = Conversion factor from GJ to cubic metres.

** where the price P_u expressed in cents / cubic metre is defined as follows:

$$P_u = (P_l * E_r * 100 * 0.03769 / 1.054615) * 0.5$$

P_l = lowest daily price in U.S. \$/mmBtu published in the Gas Daily, a Platts Publication, for that day under the column "Absolute", for the Niagara export point if the terminal location is in the CDA delivery area, and the Iroquois export point if the terminal location is in the EDA delivery area.

Term of Contract:

A minimum of one year. A longer-term contract may be required if incremental assets/facilities have been procured/built for the customer. Migration from an unbundled rate to bundled rate may be restricted subject to availability of adequate transportation and storage assets.

Right to Terminate Service:

The Company reserves the right to terminate service to customers served hereunder where the customer's failure to comply with the parameters of this rate schedule, including interruptible service and load balancing provisions, jeopardizes either the safety or reliability of the gas system. The Company shall provide notice to the customer of such termination; however, no notice is required to alleviate emergency conditions.

Load Balancing:

Any difference between actual daily-metered consumption and the actual daily volume of gas delivered to the system less the UFG shall first be provided under the provisions of Rate 315 - Gas Storage Service, if applicable. Any remaining difference will be subject to the Load Balancing Provisions.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 3 of 6
January 1, 2007	January 1, 2007	INTERIM EB-2006-0288	October 1, 2006	Handbook 31

LOAD BALANCING PROVISIONS:

Load Balancing Provisions shall apply at the customer's Terminal Location.

In the event of an imbalance any excess delivery above the customer's actual consumption or delivery less than the actual consumption shall be subject to the Load Balancing Provisions.

Definitions:

Aggregate Delivery:

The Aggregate Delivery for a customer's account shall equal the sum of the confirmed nominations of the customer for delivery of gas to the applicable delivery area from all pipeline sources including where applicable, the confirmed nominations of the customer for Storage Service under Rate 316 or Rate 315 and any available No-Notice Storage Service under Rate 315 for delivery of gas to the Applicable Delivery Area.

Applicable Delivery Area:

The Applicable Delivery Area for each customer shall be specified by contract as a Primary Delivery Area. Where system-operating conditions permit, the Company, in its sole discretion, may accept a Secondary Delivery Area as the Applicable Delivery Area by confirming the customer's nomination of such area. Confirmation of a Secondary Delivery Area for a period of a gas day shall cause such area to become the Applicable Delivery Area for such day. Where delivery occurs at both a Terminal Location and a Secondary Delivery Area on a given day, the sum of the confirmed deliveries may not exceed Contract Demand, unless Demand Overrun and/or Make-up Gas is authorized.

Primary Delivery Area:

The Primary Delivery Area shall be delivery area such as EGD's Central Delivery Area (CDA) or EGD's Eastern Delivery Area (EDA).

Secondary Delivery Area:

A Secondary Delivery Area may be a delivery area such as Dawn where the Company, at its sole discretion, determines that operating conditions permit gas deliveries for a customer.

Actual Consumption:

The Actual Consumption of the customer shall be the metered quantity of gas consumed at the customer's premise.

Net Available Delivery:

The Net Available Delivery shall equal the Aggregate Delivery times one minus the annually determined percentage of Unaccounted for Gas (UFG) as reported by the Company.

Daily Imbalance:

The Daily Imbalance shall be the absolute value of the difference between Actual Consumption and Net Available Delivery.

Cumulative Imbalance (also referred to as Banked Gas Account):

The Cumulative Imbalance shall be the sum of the difference between Actual Consumption and Net Available Delivery.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 4 of 6
January 1, 2007	January 1, 2007	INTERIM EB-2006-0288	October 1, 2006	Handbook 32

Maximum Contractual Imbalance:

The Maximum Contractual Imbalance shall be equal to 60% of the customer's Contract Demand.

Winter and Summer Seasons:

The winter season shall commence on the date that the Company provides notice of the start of the winter period and conclude on the date that the Company provides notice of the end of the winter period. The summer season shall constitute all other days. The Company shall provide advance notice to the customer of the start and end of the winter season as soon as reasonably possible, but in no event not less than 2 days prior to the start or end.

Operational Flow Order:

An Operational Flow Order (OFO) shall constitute an issuance of instructions to protect the operational capacity and integrity of the Company's system, including distribution and/or storage assets, and/or connected transmission pipelines.

Enbridge Gas Distribution, acting reasonably, may call for an OFO in the following circumstances:

- Capacity constraint on the system, or portions of the system, or upstream systems, that are fully utilized;
- Conditions where the potential exists that forecasted system demand plus reserves for short notice services provided by the Company and allowances for power generation customers' balancing requirements would exceed facility capabilities and/or provisions of 3rd party contracts;
- Pressures on the system or specific portions of the system are too high or too low for safe operations;
- Storage system constraints on capacity or pressure or caused by equipment problems resulting in limited ability to inject or withdraw from storage;
- Pipeline equipment failures and/or damage that prohibits the flow of gas;
- Any and all other circumstances where the potential for system failure exists.

Daily Balancing Fee:

On any day where the customer has a Daily Imbalance the customer shall pay a Daily Balancing Fee equal to:

(Tier 1 Quantity X Tier 1 Fee) + (Tier 2 Quantity X Tier 2 Fee) + (Applicable Penalty Fee for Imbalance in excess of the Maximum Contractual Imbalance X the amount of Daily Imbalance in excess of the Maximum Contractual Imbalance)

Where Tier 1 and 2 Fees and Quantities are set forth as follows:

Tier 1 = Daily Imbalance of greater than 2% but less than 10% of the Maximum Contractual Imbalance and shall be subject to a charge of 0.8655 cents/m³

Tier 2 = Daily Imbalance of greater than 10% but less than Maximum Contractual Imbalance shall be subject to a charge of 1.0386 cents/m³

The customers shall also pay any Load Balancing Agreement (LBA) charges imposed by the pipeline on days when the customer has a Daily Imbalance provided such imbalance matches the direction of the pipeline imbalance. LBA charges shall first be allocated to customers served under Rate 125 and 300. The system bears a portion of these charges only to the extent that the system incurs such charges based on its operation excluding the operation of customers under Rates 125 and 300. In that event, LBA charges shall be prorated based on the relative imbalances.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 5 of 6 Handbook 33
------------------------------------	---	--------------------------------------	--	----------------------------

RATE NUMBER: **300**

A Daily Imbalance in excess of the Maximum Contractual Imbalance shall be deemed to be Unauthorized Supply Overrun or Underrun gas, as appropriate.

Customer's Actual Consumption cannot exceed Net Available Delivery when the Company issues an Operational Flow Order in the winter. Net nominations must not be less than consumption at the Terminal Location. Any negative Daily Imbalance on a winter Operational Flow Order day shall be deemed to be Unauthorized Supply Overrun. Customer's Net Available Delivery cannot exceed Actual Consumption when the Company issues an Operational Flow Order in the summer. Actual Consumption must not be less than net nomination at the Terminal Location. Any positive Daily Imbalance on a summer Operational Flow Order day shall be deemed to be Unauthorized Supply Underrun.

The Company will waive Daily Balancing Fee and Cumulative Imbalance Charge on the day of an Operational Flow Order if the customer used less gas than the amount the customer delivered to the system during the winter season or the customer used more gas than the amount the customer delivered to the system during the summer season. The Company will issue a 24-hour advance notice to customers of Operational Flow Orders and suspension of Load Balancing Provisions.

Cumulative Imbalance Charges:

Customers may trade Cumulative Imbalances within a delivery area.

Customers shall be permitted to nominate Make-up Gas, subject to operating constraints, provided that Make-up Gas plus Aggregate Delivery do not exceed Contract Demand. The Company may, on days with no operating constraints, authorize Make-up Gas that, in conjunction with Aggregate Delivery, exceeds Contract Demand.

The customer's Cumulative Imbalance cannot exceed its Maximum Contractual Imbalance. The excess imbalance shall be deemed to be Unauthorized Overrun or Underrun gas, as appropriate.

The Cumulative Imbalance Fee shall be equal to of 0.4519 cents/m³ per unit of imbalance.

The customer's Cumulative Imbalance shall be equal to zero within five (5) days from the last day of the Service Contract.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on or after January 1, 2007, or, on or after April 1, 2007, depending on the start date chosen by the customer.

This rate schedule is effective January 1, 2007.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 6 of 6
January 1, 2007	January 1, 2007	INTERIM EB-2006-0288	October 1, 2006	Handbook 34

APPLICABILITY:

This rate is available to any customer taking service under Distribution Rates 125 and 300. It requires a Service Contract that identifies the required storage space and deliverability. In addition, the customer shall maintain a positive balance of gas in storage at all times or forfeit the use of Storage Services for Load Balancing and No-Notice Storage Service.

A daily nomination for storage injection and withdrawal except for No-Notice Storage Service, hereunder, which is used automatically for daily Load Balancing, shall also be required.

The maximum hourly injections / withdrawals shall equal 1/24^h of the daily Storage Demand. No-Notice Storage Service is available up to the maximum daily withdrawal rights less the nominated withdrawal or the maximum daily injection rights less the nominated injections.

Storage space shall be based on the storage space algorithm [(customer's average winter demand – customer's average annual demand) x 151]. Gas fired power generation customers have the option to have storage space determined based on the methodology approved in EB-2005-0551.

Maximum deliverability shall be 1.2% of contracted storage space. The customer may inject and withdraw gas based on the quantity of gas in storage and the limitations specified in the Service Contract. Both injection and withdrawal shall be subject to applicable storage ratchets as determined by the Company and posted from time to time.

CHARACTER OF SERVICE:

Service shall be firm when used in conjunction with firm distribution service. Service is interruptible when used in conjunction with interruptible distribution service. All service is subject to contract terms and force majeure.

The service is available on two bases:

- (1) Service nominated daily based on the available capacity and gas in storage up to the maximum contracted daily deliverability; and
- (2) No-Notice Storage Service for daily Load Balancing consistent with the maximum hourly deliverability.

RATE:

The following rates and charges shall apply in respect to all gas received by the Company from and delivered by the Company to storage on behalf of the Applicant.

Monthly Customer Charge:	\$150.00
Storage Reservation Charge:	
Monthly Storage Space Demand Charge	0.0367 ¢/m³
Monthly Storage Deliverability/Injection Demand Charge	11.9813 ¢/m³
Injection & Withdrawal Unit Charge:	0.4872 ¢/m³
Monthly Minimum Bill: The sum of the Monthly Customer Charge plus Monthly Demand Charges:	

FUEL RATIO REQUIREMENT:

The Fuel Ratio per unit of gas injected and withdrawn is 0.35%.

All Storage Space and Deliverability/Injection Demand Charges are applicable monthly. Injection and withdrawal charges are applicable to each unit of gas injected or withdrawn based on daily nominations and No-Notice Storage Service quantities.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 3 Handbook 35
------------------------------------	---	--------------------------------------	--	----------------------------

All deemed withdrawal quantities under the No-Notice Storage Service provisions of this rate will be adjusted for the UFG provisions applicable to the distribution service rates.

In addition, for each unit of injection or withdrawal there will be an applicable fuel charge adjustment expressed as a percent of gas.

TERMS AND CONDITIONS OF SERVICE:

1. Nominated Storage Service:

Nominations under this rate shall only be accepted at the standard North American Energy Standards Board ("NAESB") nomination windows. The customer may elect to nominate all or a portion of the available withdrawal capacity for delivery to the applicable Primary Delivery Area, which may be EGD's Central Delivery Area (CDA) or EGD's Eastern Delivery Area (EDA). All volumes nominated from storage are delivered first for purposes of daily Load Balancing of available supply assets. When system conditions permit, the customer may nominate all or a portion of the available withdrawal capacity for delivery to Dawn or to the customer's Primary Delivery Area for purposes other than consumption at the customer's own meter.

Storage not nominated for delivery will be available for No-Notice Storage Service. The sum of gas nominated for storage injection and for the Terminal Location shall not exceed the customer's Contract Demand (CD).

The customer may also nominate gas for delivery into storage by nominating the storage delivery area as the Primary Delivery Area. Gas nominated for storage delivery will not be available for No-Notice Storage Service. The sum of gas nominated for storage injection and for the Terminal Location shall not exceed the customer's CD. Any gas in excess of the contract demand will be subject to cash out as injection overrun gas.

The Company reserves the right to limit injection and withdrawal rights to all storage customers in certain situations, such as major maintenance or construction projects, and may reduce nominations for injections and withdrawals over and above applicable storage ratchets. The Company will provide customers with one week's notice of its intent to limit injection and withdrawal rights, and at the same time, shall provide its best estimate of the duration and extent of the limitations.

In situations where the Company limits injection and withdrawal rights, the Company shall proportionately reduce the Storage Deliverability/Injection Demand Charge for affected customers based on the number of days the limitation is in effect and the difference between Deliverability/Injection Demand, subject to applicable storage ratchets, and the quantity of gas actually delivered or injected.

2. No-Notice Storage Service:

The Company, at its sole discretion based on operating conditions, may provide a No-Notice Storage Service that allows customers taking gas under distribution service rates to balance daily deliveries using this Storage Service. No-Notice Storage Service requires that the customer grant the Company the exclusive right to use unscheduled service available from storage to reduce the daily imbalance associated with the actual consumption of the customer.

No-Notice Storage Service is limited to the available, unscheduled withdrawal or injection capacity under contract to serve a customer. Where the customer serves multiple delivery locations from a single storage Service Contract, the customer shall specify the order in which gas is to be delivered to each Terminal Location served under a distribution Service Contract. The specified order of deliveries shall be used to administer Load Balancing Provisions to each Terminal Location.

The availability of No-Notice Storage Service is subject to and reduced by any service schedule from or to storage. To the extent that the quantity of gas available in storage is insufficient to meet the requirements of the customer under a No-Notice Storage Service, the customer will be unable to use the service on a no-notice basis for Load Balancing service. To the extent that the scheduled injections into storage plus No-Notice Storage Service exceed the maximum limit for injection, No-Notice Storage Service will be reduced and the remainder of the gas will constitute a daily imbalance. Gas delivered in excess of the maximum injection quantity shall be deemed injection overrun gas and cashed out at 50% of the lowest index price of gas.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 3 Handbook 36
January 1, 2007	January 1, 2007	INTERIM EB-2006-0288	October 1, 2006	

Other provisions:

If the customer elects to use the contracted storage capacity at less than the full volumetric capacity of the storage, the Company may inject its own gas provided that such injection does not reduce the right of the customer to withdraw the full amount of gas injected on any day during the withdrawal season or to schedule its full injection right during the injection season.

Term of Contract:

A minimum of one year.

A longer-term contract may be required if incremental contracts/assets/facilities have been procured/built for the customer.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on or after January 1, 2007, or, on or after April 1, 2007, depending on the start date chosen by the customer.

This rate schedule is effective January 1, 2007.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 3 of 3 Handbook 37
------------------------------------	---	--------------------------------------	--	----------------------------

APPLICABILITY:

To any Applicant whose delivery of natural gas to the Company for transportation to a Terminal Location has been interrupted prior to the delivery of such gas to the Company.

CHARACTER OF SERVICE:

The volume of gas available for backstopping in any day shall be determined by the Company exercising its sole discretion. If the aggregate daily demand for service under this Rate Schedule exceeds the supply available for such day, the available supply shall be allocated to firm service customers on a first requested basis and any balance shall be available to interruptible customers on a first requested basis.

RATE:

The rates applicable in the circumstances contemplated by this Rate Schedule, in lieu of the Gas Supply Charges specified in any of the Company's other Rate Schedules pursuant to which the Applicant is taking service, shall be as follows:

	<u>Billing Month</u>
	January
	to
	<u>December</u>
Gas Supply Charge	
Per cubic metre of gas sold	35.0659 ¢/m³

provided that if upon the request of an Applicant, the Company quotes a rate to apply to gas which is delivered to the Applicant at a particular Terminal Location on a particular day or days and to which this Rate Schedule is applicable (which rate shall not be less than the Company's avoided cost in the circumstances at the time nor greater than the otherwise applicable rate specified above), then the Gas Supply Charge applicable to such gas shall be the rate quoted by the Company.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after January 1, 2007 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 1 Handbook 38
------------------------------------	---	--------------------------------------	--	----------------------------

APPLICABILITY AND CHARACTER OF SERVICE:

Service under this rate schedule shall apply to the Transmission and Compression Service Agreement with Union Gas Limited dated April 1, 1989, and the Transmission, Compression and Pool Storage Service Agreement with Centra Gas Ontario Inc. dated May 30, 1994. Service shall be provided subject to the terms and conditions specified in the Service Agreement.

RATE:

The Customer shall pay for service rendered in each month in a contract year, the sum of the following applicable charges:

	Transmission & Compression \$/10³m³	Pool Storage \$/10³m³
Demand Charge for:		
Annual Turnover Volume	0.1776	0.2131
Maximum Daily Withdrawal Volume	16.0517	19.3327
Commodity Charge	1.6950	0.6860

FUEL RATIO REQUIREMENT:

Fuel Ratio applicable to per unit of gas injected and withdrawn is 0.35%.

MINIMUM BILL:

The minimum monthly bill shall be the sum of the applicable Demand Charges as stated in Rate Section above.

EXCESS VOLUME AND OVERRUN RATES:

In addition to the charges provided for in the Rate Section above, the Customer shall pay, for services rendered, the sum of the following applicable charges as they are incurred:

TERMS AND CONDITIONS OF SERVICE:

1. Excess Volumes will be billed at the total of the Excess Volume Charges as stated above.
2. Transmission and Compression, and Pool Storage Overrun Service will be billed according to the following:
 - (a) At the end of each month, in a contract year, the Company will make a determination, for each day in the month, of
 - (i) the difference between the volume of gas actually delivered, exclusive of the fuel volume, for Customer's account into the Company System, at the Point of Delivery and the Customer's Maximum Daily Injection Volume, and
 - (ii) the difference between the volume of gas actually delivered, exclusive of the fuel volume, for Customer's account from the Company System, at the Point of Delivery, and the Customer's Maximum Daily Withdrawal Volume.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 2 Handbook 39
------------------------------------	---	--------------------------------------	--	----------------------------

	Excess Volume Charge \$/10³m³ / Year	Overrun Charge \$/10³m³ / Day
Transmission & Compression		
Authorized	2.3438	0.5277
Unauthorized	-	211.8829
Pool Storage		
Authorized	2.8135	0.6356
Unauthorized	-	255.1914

(b) For each day of the month, where any such differences exceed 2.0 percent of the Customer's relevant Maximum Daily Injection Volume and/or Maximum Daily Withdrawal Volume, the Customer shall pay a charge equal to the relevant Overrun rates, as stated above, for such differences.

BILLING ADJUSTMENT:

1. Injection deficiency - If at the beginning of any Withdrawal Period the Customer's Storage Balance is less than the Customer's Annual Turnover Volume, due solely to the Company's inability to inject gas for any reason other than the fault of the Customer, then the applicable Demand Charge for Annual Turnover Volume for the contract year beginning the prior April 1 as stated in Rate Section as applicable, shall be adjusted by multiplying each by a fraction, the numerator of which shall be the Customer's Storage Gas Balance as of the beginning of such Withdrawal Period and the denominator shall be the Customer's Annual Turnover Volume as it may have been established for the then current year.
2. Withdrawal deficiency - If in any month in a contract year for any reason other than the fault of the Customer, the Company fails or is unable to deliver during any one or more days, the amount of gas which the Customer has nominated, up to the maximum volumes which the Company is obligated by the Agreement to deliver to the Customer, then the Demand Charge for maximum Contract Daily Withdrawal Volume in the contract year otherwise payable for the month in which such failure occurs, as stated in Rate Section above, as applicable, shall be reduced by an amount for each day of deficiency to be calculated as follows: The Demand Charge for maximum Contract Daily Withdrawal Volume for the contract year for the month will be divided by 30.4 and the result obtained will then be multiplied by a fraction, the numerator being the difference between the nominated volume for such day and the delivered volume for such day and the denominator being the Customer's maximum Contract Daily Withdrawal Volume for such contract year.

TERMS AND EXPRESSIONS:

In the application of this Rate Schedule to each of the Agreements, terms and expressions used in this Rate Schedule have the meanings ascribed thereto in such Agreement.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after January 1, 2007. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 2 of 2 Handbook 40
------------------------------------	---	--------------------------------------	--	----------------------------

APPLICABILITY:

To any Applicant who enters into a Storage Contract with the Company for delivery by the Applicant to the Company and re-delivery by the Company to the Applicant of a volume of natural gas owned by the Applicant.

CHARACTER OF SERVICE:

Service under this rate is for Full Cycle or Short Cycle storage service; with firm or interruptible injection and withdrawal service, all as may be available from time to time.

RATE:

The following rates and charges shall apply in respect of all gas received by the Company from and re-delivered by the Company to the Applicant.

	Firm \$/10 ³ m ³	Full Cycle Interruptible \$/10 ³ m ³	Short Cycle \$/10 ³ m ³
Monthly Demand Charge per unit of Annual Turnover Volume:			
Minimum	0.3907	0.3907	-
Maximum	1.9535	1.9535	-
Monthly Demand Charge per unit of Contracted Daily Withdrawal:			
Minimum	35.3844	28.3075	-
Maximum	176.9221	141.5377	-
Commodity Charge per unit of gas delivered to / received from storage:			
Minimum	2.3810	2.3810	1.0067
Maximum	11.9050	11.9050	42.0268

FUEL RATIO REQUIREMENT:

The Fuel Ratio per unit of gas injected and withdrawn is 0.35%.

TRANSACTING IN ENERGY:

The conversion factor is 37.74MJ/m³, which corresponds to Union Gas' System Wide Average Heating Value, as per the Board's RP-1999-0017 Decision with Reasons.

MINIMUM BILL:

The minimum monthly bill shall be the sum of the applicable Demand Charges.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 2 Handbook 41
------------------------------------	---	--------------------------------------	--	----------------------------

OVERRUN RATES:

The units rates stated below will apply to overrun volumes. The provision of Authorized Overrun service will be at the Company's sole discretion.

	Firm \$/10 ³ m ³	Full Cycle Interruptible \$/10 ³ m ³	Short Cycle \$/10 ³ m ³
Authorized Overrun Annual Turnover Volume Negotiable, not to exceed:	42.0268	42.0268	42.0268
Authorized Overrun Daily Injection/Withdrawal Negotiable, not to exceed:	42.0268	42.0268	42.0268
Unauthorized Overrun Annual Turnover Volume Excess Storage Balance September 1 - November 30	420.2681	420.2681	420.2681
December 1 - October 31	42.0268	42.0268	42.0268
Unauthorized Overrun Annual Turnover Volume Negative Storage Balance			

TERMS AND CONDITIONS OF SERVICE:

1. All Services are available at the Company's sole discretion.
2. Delivery and Re-delivery of the volume of natural gas shall be from/to the facilities of Union Gas Limited and / or TransCanada PipeLines Limited in Dawn Township and/or Niagara Gas Transmission Limited in Moore Township.
3. The Customers daily injections or withdrawals will be adjusted to provide for the fuel ratio stated in the Fuel Ratio Section. In the event that a Short Cycle service does not require fuel for injection and/or withdrawal, the fuel ratio commodity charge may be waived.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after January 1, 2007. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 2 of 2 Handbook 42
------------------------------------	---	--------------------------------------	--	----------------------------

APPLICABILITY:

To any Applicant who enters into a Contract with the Company for transportation on the Company's Tecumseh Transmission System.

CHARACTER OF SERVICE:

Service under this rate is for firm transportation service as may be available from time to time.

RATE:

The following rates and charges shall apply in respect of all gas received by the Company from and re-delivered by the Company to the Applicant.

	Firm \$/10 ³ m ³	Interruptible \$/10 ³ m ³
Monthly Demand Charge per unit of Maximum Contracted Daily Delivery:	3.3350	-
Commodity Charge per unit of gas delivered:	-	0.1320

MINIMUM BILL:

The minimum monthly bill shall be the sum of the applicable Demand Charges.

TERMS AND CONDITIONS OF SERVICE:

1. Delivery of the volume of natural gas by the Applicant shall be at the interconnection of the Company's Tecumseh transmission facilities with that of Niagara Gas Transmission Limited at the Tecumseh Compressor Station.
2. Re-delivery of the volume of natural gas shall be at the interconnection of the Company's facilities with those of interconnecting pipelines in Dawn Township.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after January 1, 2007. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 1 Handbook 43
------------------------------------	---	--------------------------------------	--	----------------------------

Applicants located off the piping networks noted below or off piping systems supplied from these networks may be curtailed to maintain distribution system integrity.

The Town of Collingwood
The Town of Midland

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 1
January 1, 2007	January 1, 2007	INTERIM EB-2006-0288	October 1, 2006	Handbook 44

APPLICABILITY:

This rider is applicable to any Applicant who enters into Gas Transportation Agreement with the Company under any rate other than Rates 125, 300 and 305.

MONTHLY DIRECT PURCHASE ADMINISTRATION CHARGE:

Base Charge	\$50.00 per month
Maximum Charge	\$815.00 per month
Account Charge	
New Accounts	\$0.50 per month per account
Renewal Accounts	\$0.15 per month per account

The above Basic Charge shall be increased up to the maximum charge, by the new account charge for each new account and by the Renewal Account charge for each renewal account in a Direct Purchase Contract.

T-SERVICE CREDIT:

In T-Service Arrangements excluding Ontario ABC-T arrangements, between the Company and an Applicant, and with a T-Service Arrangement and a contractually specified Point of Acceptance as indicated below, the Company shall pay or charge the Applicant the Transportation Service Credit or Debit shown for any volumes of natural gas owned by the Applicant and received by the Company at the Point of Acceptance. The ability of the Company to accept deliveries under FT-type arrangements at Dawn is constrained and the availability of this service is at the Company's sole discretion.

TOLLS CREDIT Point of Acceptance	Type of Arrangement	
	Firm Transportation (FT)	Firm Service Tendered (FST)
Western Canada	0.0000 ¢/m ³	0.0000 ¢/m ³
CDA, EDA	3.5241 ¢/m ³	0.0000 ¢/m ³
Dawn	3.0382 ¢/m ³	0.0000 ¢/m ³
<i>Intra-Alberta</i>	-0.4649 ¢/m ³	N/A

Effective February 1, 2001, in Ontario ABC-T arrangements with a contractually specified Point of Acceptance in the CDA and/or EDA, the toll credit shall equal the Eastern Zone Firm Transportation tolls approved by the National Energy Board for TCPL at a 100% load factor.

TCPL FT CAPACITY TURNBACK:**APPLICABILITY:**

To Ontario T-Service customers who have been or will be assigned TCPL capacity by the Company.

TERMS AND CONDITIONS OF SERVICE:

- The Company will accommodate TCPL FT capacity turnback from customers to the extent that the Company is allowed to turnback FT capacity to TCPL.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	REPLACING RATE EFFECTIVE: October 1, 2006	Page 1 of 2 Handbook 45
------------------------------------	---	--------------------------------------	--	----------------------------

2. The Company will accommodate all TCPL FT capacity turnback requests in a manner that minimizes stranded and other transitional costs. The Company is committed to maintaining the integrity of its distribution system and the sanctity of all contracts.
3. The Company may amend any contracts to accommodate a customer's request to turnback capacity.
4. Notice of TCPL FT turnback capacity will be accepted on Enbridge's Election for Enbridge Firm Transportation Assignment form or other authorized written notice.
5. The daily contractual right to receive natural gas would still be subject to the delivery, on a firm basis, of the full Mean Daily Volume into the Company's Central Delivery Area (CDA) and/or Eastern Delivery Area (EDA). The delivery area must match the area in which consumption will occur.
6. The proportion of TCPL FT capacity that an eligible customer may request to be turned back each year ("percentage turnback") shall not exceed the proportion of the TCPL capacity that Enbridge is entitled to turn back that year. This percentage turnback will be applied to calculate the customer's turnback capacity limit based on the renewal volume of the direct purchase agreement.
7. If the Company is unable to accommodate all or a portion of an eligible customer's request to turnback TCPL FT capacity in the month requested by the customer, the Company will indicate the month(s) when such customer request can be fully satisfied and the costs, if any, associated with accommodating this request. The customer may then advise the Company as to whether or not they wish to proceed with the TCPL FT capacity turnback request.
8. All TCPL FT capacity turnback requests will be treated on an equitable basis.
9. Customers may withdraw their original election given they provide notice to the Company a minimum of one week prior to the deadline specified in the TransCanada tariff for FT contract extension.
10. The percentage turnback of TCPL FT capacity will be applied at the Direct Purchase Agreement level.
11. Written notice to turnback capacity must be received by the Company the earlier of:
 - (a) Sixty days prior to the expiry date of the current contract.
 - or
 - (b) A minimum of one week prior to the deadline specified in TransCanada tariff for FT contract extension.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after January 1, 2007. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

January 1, 2007	January 1, 2007	INTERIM EB-2006-0288	October 1, 2006	Handbook 46

APPLICABILITY:

This rider is applicable to any Applicant who entered into a Gas Purchase Agreement with the Company, prior to April 1, 1999, to sell to the Company a supply of natural gas.

MONTHLY DIRECT PURCHASE ADMINISTRATION CHARGE:

Base Charge	\$50.00 per month
Maximum Charge	\$815.00 per month
Account Charge	
New Accounts	\$0.50 per month per account
Renewal Accounts	\$0.15 per month per account

The above Basic Charge shall be increased up to the maximum charge, by the new account charge for each new account and by the Renewal Account charge for each renewal account in a Direct Purchase Contract.

BUY / SELL PRICE:

In Buy/Sell Arrangements between the Company and an Applicant, the Company shall buy the Applicants gas at the Company's actual FT-WACOG price determined on a monthly basis in the manner approved by the Ontario Energy Board. For Western Buy/Sell arrangements the FT-WACOG price shall be reduced by pipeline transmission costs.

FT FUEL PRICE:

The FT fuel price used to establish the Buy price in Western Buy/Sell arrangements without fuel will be determined monthly based upon the actual FT-WACOG.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after January 1, 2007. This rate schedule is effective January 1, 2007 and replaces the identically numbered rate schedule that specifies, as the Effective Date, October 1, 2006 and that indicates, as the Board Order, EB-2006-0195.

Cut Off At Main charges for commercial services and other residential services that involve significantly more work than the average will be custom quoted.

Cut Off At Main Charge - Other Customer Requests \$1,200.00

Other residential Cut Off At Main requests due to demolitions, fires, inactive services, etc. will be charged at the standard COAM rate.

Meter In-Out (Residential Only) \$260.00

Relocate the meter from inside to outside per customer request

Request For Service Call Information \$30.00

Provide written information of the result of a service call as requested by home owners.

Temporary Meter Removal \$260.00

As requested by customers.

EFFECTIVE DATE: January 1, 2007	IMPLEMENTATION DATE: January 1, 2007	BOARD ORDER: INTERIM EB-2006-0288	Page 2 of 2 Handbook 53
------------------------------------	---	--------------------------------------	----------------------------

APPLICABILITY:

This rider is applicable to any Applicant who enters into Gas Transportation Agreement with the Company under any rate.

ENHANCED TITLE TRANSFER SERVICE:

In any Gas Transportation Agreement between the Company and the Applicant, the Applicant may elect to initiate a transfer of natural gas between the Company and another utility, regulated by the Ontario Energy Board, at Dawn for the purposes of reducing an imbalance between the customer's deliveries and consumption within the Enbridge Gas Distribution franchise areas. The ability of the Company to accept such an election may be constrained at various points in time for customers obtaining services under any rate other than Rate 125 or 300 due to operational considerations of the Company.

The cost for this service is separated between an Administration Charge that is applicable to all Applicants and a Bundled Service Charge that is only applicable to Applicants obtaining services under any rate other than Rate 125 or 300.

Administration Charge:

Base Charge	\$50.00 per transaction
Commodity Charge	\$1.1905 per 10 ³ m ³

Bundled Service Charge:

The Bundled Service Charge shall be equal to the absolute difference between the Eastern Zone and Southwest Zone Firm Transportation tolls approved by the National Energy Board for TCPL at a 100% Load Factor.

GAS IN STORAGE TITLE TRANSFER:

An Applicant that holds a contract for storage services under Rate 315 or 316 may elect to initiate a transfer of title to the natural gas currently held in storage between the storage service and another storage service held by the Applicant, or any other Applicant that has contracted with the Company for storage services under Rate 315 or 316. The service will be provided on a firm basis up to the volume of gas that is equivalent to the more restrictive firm withdrawal and injection parameters of the two parties involved in the transfer. Transfer of title at rates above this level may be done on at the Company's discretion.

For Applicants requesting service between two storage service contracts that have like services, each party to the request shall pay an Administration Charge applicable to the request. Services shall be considered to be alike if the injection and deliverability rate at the ratchet levels in effect at the time of the request are the same and both services are firm or both services are interruptible. In addition to like services, the Company, at its sole discretion based on operational conditions, will also allow for the transfer of gas from a storage service contract that has a level of deliverability that is higher than the level of deliverability of the storage service contract the gas is being transferred to with only the Administration Charge being applicable to each party.

In addition to the Administration Charge, Applicants requesting service between two storage service contracts not addressed in the preceding paragraph would be subject to the injection and withdrawal charges specified in their contracts.

Administration Charge:	\$25.00 per transaction

APPENDIX "B"
TO DECISION AND ORDER
BOARD FILE NO. EB-2006-0288
DATED DECEMBER 20, 2006

New Rate Information

January 2007

Residential Customers - Rate 1 (System customers)

Natural gas prices have changed

The Ontario Energy Board ("OEB") has approved a decrease to Enbridge Gas Distribution's Gas Supply and Delivery Charges effective January 1, 2007. The effect on your bill will depend on how much gas you use. For a typical residential customer, these changes will result in a decrease of approximately \$90 annually, excluding the Gas Cost Adjustment.

Gas Supply Charge

Due to lower natural gas prices, the Gas Supply Charge will decrease to 31.4844 cents per cubic metre (" $\text{¢}/\text{m}^3$ ") from 34.0717 $\text{¢}/\text{m}^3$. This price is based on a forecast of market prices for the next twelve months. The forecast price is reviewed every three months and, if necessary, adjusted accordingly to reflect market changes. If our forecasts are over or under our actual costs, we reimburse or collect the difference from customers through gas cost adjustments.

Enbridge Gas Distribution does not make a profit on the cost of natural gas. The price we charge is the same as our cost to purchase natural gas.

Gas Cost Adjustment

The OEB has approved a new Gas Cost Adjustment refund of 0.8735 $\text{¢}/\text{m}^3$ for the period January 1, 2007 through December 31, 2007.

Delivery Charge

The Delivery Charge has decreased mainly due to lower commodity-related costs for the coming year. Commodity-related costs include the cost of storing natural gas and ensuring that there is enough gas in the distribution system to meet the demand at all times. The decrease will amount to approximately \$11 per year for a typical customer.

Residential Rates

Your current bill has been calculated for gas used from January 1, 2007 using the new approved rates as identified below. The annualized impact is based on a typical residential heating and water heating customer who uses 3,064 cubic metres per year.

MONTHLY CHARGES	MONTHLY RATES January 1, 2007	ANNUALIZED Increase/(Decrease)
Customer Charge	\$11.25	No change
Gas Supply Charge	31.4844 $\text{¢}/\text{m}^3$	\$(79)
Delivery Charge		\$(11)
Amount of gas used per month in cubic metres (m^3)		
First 30	14.3051 $\text{¢}/\text{m}^3$	
Next 55	13.6778 $\text{¢}/\text{m}^3$	
Next 85	13.1863 $\text{¢}/\text{m}^3$	
Over 170	12.8203 $\text{¢}/\text{m}^3$	
ADDITIONAL ITEMS	MONTHLY RATES	Increase/(Decrease)
Gas Cost Adjustment (January 1 – December 31, 2007)	(0.8735) $\text{¢}/\text{m}^3$	\$(26)

Enbridge Gas Distribution provides safe, reliable delivery of natural gas. For more information about Enbridge Gas Distribution rates, call 1-800-263-2212 or visit www.enbridge.com/gas.

***Note: Late Payment Charge**

Enbridge Gas Distribution charges are due when you receive your bill, which is considered to be three days after the bill is rendered. A late payment charge of 1.5 per cent (1.5%) of all of your unpaid Enbridge Gas Distribution charges, including all applicable federal and provincial taxes, is applied to your account on the 17th day following the date the bill is due.

New Rate Information

January 2007

Residential Customers - Rate 1 (ABC-T customers)

Natural gas prices have changed

The Ontario Energy Board (“OEB”) has approved a decrease to Enbridge Gas Distribution’s Delivery Charge effective January 1, 2007. The effect on your bill will depend on how much gas you use. For a typical residential customer, these changes will result in a decrease of approximately \$11 annually.

The price you pay for the natural gas you use, shown as the Gas Supply Charge on your bill, depends on the terms of your agreement with your gas marketer.

Delivery Charge

The Delivery Charge has decreased mainly due to lower commodity-related costs for the coming year. Commodity-related costs include the cost of storing natural gas and ensuring that there is enough gas in the distribution system to meet the demand at all times. The decrease will amount to approximately \$11 per year for a typical customer.

Residential Rates

Your current bill has been calculated for gas used from January 1, 2007 using the new approved rates as identified below. The annualized impact is based on a typical residential heating and water heating customer who uses 3,064 cubic metres per year.

MONTHLY CHARGES	MONTHLY RATES January 1, 2007	ANNUALIZED Increase/(Decrease)
Customer Charge	\$11.25	No change
Gas Supply Charge	Your price is based on your contract with your marketer.	
Delivery Charge		\$(11)

Over 170	12.8203 ¢/m ³	

Enbridge Gas Distribution provides safe, reliable delivery of natural gas. For more information about Enbridge Gas Distribution rates, call 1-800-263-2212 or visit www.enbridge.com/gas.

*Note: Late Payment Charge

Enbridge Gas Distribution charges are due when you receive your bill, which is considered to be three days after the bill is rendered. A late payment charge of 1.5 per cent (1.5%) of all of your unpaid Enbridge Gas Distribution charges, including all applicable federal and provincial taxes, is applied to your account on the 17th day following the date the bill is due.

New Rate Information

January 2007

Commercial and Industrial Customers - Rate 6 (System customers)

Natural gas prices have changed

The Ontario Energy Board ("OEB") has approved a decrease to Enbridge Gas Distribution's Gas Supply and Delivery Charges effective January 1, 2007. The effect on your bill will depend on how much gas you use. For a typical commercial and industrial heating customer, these changes will result in a decrease of approximately \$665 annually, excluding the Gas Cost Adjustment.

Gas Supply Charge

Due to lower natural gas prices, the Gas Supply Charge will decrease to 31.6267 cents per cubic metre (" $\text{¢}/\text{m}^3$ ") from 34.2140 $\text{¢}/\text{m}^3$. This price is based on a forecast of market prices for the next twelve months. The forecast price is reviewed every three months and, if necessary, adjusted accordingly to reflect market changes. If our forecasts are over or under our actual costs, we reimburse or collect the difference from customers through gas cost adjustments.

Enbridge Gas Distribution does not make a profit on the cost of natural gas. The price we charge is the same as our cost to purchase natural gas.

Gas Cost Adjustment

The OEB has approved a new Gas Cost Adjustment refund of 0.7669 $\text{¢}/\text{m}^3$ for the period January 1, 2007 through December 31, 2007.

Delivery Charge

The Delivery Charge has decreased mainly due to lower commodity-related costs for the coming year. Commodity-related costs include the cost of storing natural gas and ensuring that there is enough gas in the distribution system to meet the demand at all times. The decrease will amount to approximately \$80 per year for a typical customer.

Commercial and Industrial Rates

The current bill has been calculated for gas used from January 1, 2007 using the new approved rates as identified below. The annualized impact is based on a typical commercial and industrial heating and water heating customer who uses 22,606 cubic metres per year.

MONTHLY CHARGES	MONTHLY RATES January 1, 2007	ANNUALIZED Increase/(Decrease)
Customer Charge	\$22.00	No Change
Gas Supply Charge	31.6267 $\text{¢}/\text{m}^3$	\$(585)
Delivery Charge		\$(80)
Amount of gas used per month in cubic metres (m^3)		
First 500	13.3248 $\text{¢}/\text{m}^3$	
Next 1,050	11.2812 $\text{¢}/\text{m}^3$	
Next 4,500	9.8507 $\text{¢}/\text{m}^3$	
Next 7,000	8.9311 $\text{¢}/\text{m}^3$	
Next 15,250	8.5224 $\text{¢}/\text{m}^3$	
Over 28,300	8.4202 $\text{¢}/\text{m}^3$	

ADDITIONAL ITEMS	MONTHLY RATES	Increase/(Decrease)
Gas Cost Adjustment (January 1 to December 31, 2007)	(0.7669) ¢/m ³	\$(173)

Enbridge Gas Distribution provides safe, reliable delivery of natural gas. For more information about Enbridge Gas Distribution rates, call 1-800-263-2212 or visit www.enbridge.com/gas.

***Note: Late Payment Charge**

Enbridge Gas Distribution charges are due when you receive your bill, which is considered to be three days after the bill is rendered. A late payment charge of 1.5 per cent (1.5%) of all of your unpaid Enbridge Gas Distribution charges, including all applicable federal and provincial taxes, is applied to your account on the 17th day following the date the bill is due.

New Rate Information

January 2007

Commercial and Industrial Customers - Rate 6 (ABC-T customers)

Natural gas prices have changed

The Ontario Energy Board (“OEB”) has approved a decrease to Enbridge Gas Distribution’s Delivery Charge effective January 1, 2007. The effect on your bill will depend on how much gas you use. For a typical commercial and industrial customer, these changes will result in a decrease of approximately \$80 annually.

The price you pay for the natural gas you use, shown as the Gas Supply Charge on your bill, depends on the terms of your agreement with your gas marketer.

Delivery Charge

The Delivery Charge has decreased mainly due to lower commodity-related costs for the coming year. Commodity-related costs include the cost of storing natural gas and ensuring that there is enough gas in the distribution system to meet the demand at all times. The decrease will amount to approximately \$80 per year for a typical customer.

Commercial and Industrial Rates

Your current bill has been calculated for gas used from January 1, 2007 using the new approved rates as identified below. The annualized impact is based on a typical commercial and industrial heating and water heating customer who uses 22,606 cubic metres per year.

MONTHLY CHARGES	MONTHLY RATES January 1, 2007	ANNUALIZED Increase/(Decrease)
Customer Charge	\$22.00	No Change
Gas Supply Charge	Your price is based on your contract with your marketer.	
Delivery Charge Amount of gas used per month in cubic metres (m ³)		\$(80)
First 500	13.3248 ¢/m ³	
Next 1,050	11.2812 ¢/m ³	
Next 4,500	9.8507 ¢/m ³	
Next 7,000	8.9311 ¢/m ³	
Next 15,250	8.5224 ¢/m ³	
Over 28,300	8.4202 ¢/m	

Enbridge Gas Distribution provides safe, reliable delivery of natural gas. For more information about Enbridge Gas Distribution rates, call 1-800-263-2212 or visit www.enbridge.com/gas.

*Note: Late Payment Charge

Enbridge Gas Distribution charges are due when you receive your bill, which is considered to be three days after the bill is rendered. Container Service Customer Notice - Rate 9

Natural gas prices have changed

The Ontario Energy Board ("OEB") has approved a decrease to Enbridge Gas Distribution's Gas Supply and Delivery Charges effective January 1, 2007. The effect on your bill will depend on how much gas your organization uses. On average, the decrease will amount to approximately 6% annually, excluding the Gas Cost Adjustment.

Your current bill has been calculated using the new approved rates for gas consumed from January 1, 2007. The rates are on the reverse side of this notice.

Gas Supply Charge

Due to lower natural gas prices, the Gas Supply Charge will decrease to 31.3481 cents per cubic metre (" $\text{¢}/\text{m}^3$ ") from 33.9354 $\text{¢}/\text{m}^3$. This price is based on a forecast of market prices for the next twelve months. The forecast price is reviewed every three months and, if necessary, adjusted accordingly to reflect market changes. If our forecasts are over or under, we reimburse or collect from customers through gas cost adjustments.

Enbridge Gas Distribution does not make a profit on the cost of natural gas. The price we charge is the same as our cost to purchase natural gas.

Gas Cost Adjustment

The OEB has approved a new Gas Cost Adjustment refund of 4.4714 $\text{¢}/\text{m}^3$ for the period January 1, 2007 through December 31, 2007.

Delivery Charge

The Delivery Charge has decreased mainly due to lower commodity-related costs for the coming year. Commodity-related costs include the cost of storing natural gas and ensuring that there is enough gas in the distribution system to meet the demand at all times.

For further information

Enbridge Gas Distribution appreciates the opportunity to serve you and looks forward to the continuation of our business relationship. If you require further information with respect to this rate change, please call your Enbridge office. The telephone number is located on the front of your bill. Also, visit our website at: www.enbridge.com/gas
