

EB-2008-0031

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Sched. B);

AND IN THE MATTER OF an Application by Natural Resource Gas Limited, pursuant to section 36 (1) of the *Ontario Energy Board Act, 1998*, for an order or orders approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission, and storage of gas as of April 1, 2008;

AND IN THE MATTER OF the quarterly rate adjustment mechanism approved by the Ontario Energy Board.

BEFORE: Ken Quesnelle
Presiding Member

DECISION AND ORDER

Natural Resource Gas Limited (“NRG”) filed an application (the “Application”) with the Ontario Energy Board (the “Board”) on March 3, 2008, for an order or orders approving or fixing just and reasonable rates for the sale and distribution of gas commencing April 1, 2008. On March 7, 2008, NRG re-filed its Application to correct an error in the methodology used in the gas price forecast. The Application was made pursuant to NRG’s approved Quarterly Rate Adjustment Mechanism (“QRAM”). In particular, NRG’s application requested:

- An order increasing the reference price for use in determining amounts to be recorded in the Purchased Gas Commodity Variance Account (“PGCVA”) by \$0.046462 per m³ from the Board approved level of \$0.305418 per m³ to \$0.351880 per m³; and

- An order increasing the gas supply charge by \$0.057204 per m³ from the Board approved level of \$0.305213 per m³ to \$0.362417 per m³. This increase is the sum of the increase related to the change in the PGCVA reference price and the change required to prospectively clear the balance in the Gas Purchase Rebalancing Account (“GPRA”).

NRG has provided written evidence in support of the proposed changes contained in the Application. The Application and pre-filed evidence have been provided by NRG to all parties of record in the main rates proceeding EB-2005-0544.

The Board issued a Notice of Written Hearing and Procedural Order No. 1 on March 13, 2008 allowing parties of record to file interrogatories and submissions. The Board received one submission from Board Staff which requested further explanation of why NRG was unable to obtain pricing information on three days in the gas forecast period.

NRG did not have consecutive day pricing information available during the preparation of the QRAM application. NRG’s supplier has indicated they experienced computer problems that prevented NRG from receiving 10 consecutive days of pricing. NRG used 10 out of a possible 13 days, and believes the significant overlap provides a reasonable proxy for the consecutive day pricing gas forecast. The Board finds NRG’s explanation reasonable, and approves of the method used in light of the circumstances.

The Board has considered the evidence and finds that it is appropriate to adjust NRG’s rates effective April 1, 2008 to reflect the projected changes in gas costs and prospective recovery of the projected twelve-month balances of the gas supply deferral accounts for the period ending March 31, 2009. The Board also finds that it is appropriate to adjust NRG’s reference prices to reflect the projected changes in gas costs.

Pursuant to section 36(4.1) of the *Ontario Energy Board Act, 1998*, the Board has considered all deferral account balances related to the commodity cost of gas and is adjusting rates, as set out below, to dispose of the forecasted account balance.

THE BOARD ORDERS THAT:

1. The gas supply charge shall be increased by \$0.046462 per m³ from the Board approved level of \$0.305418 per m³ to \$0.351880 per m³ and the rate schedules attached as Appendix "A" are approved effective April 1, 2008.
2. The reference price for use in determining the amounts to be recorded in the PGCVA (Account No. 179-27) shall be increased by \$0.057204 per m³ from the Board approved level of \$0.305213 per m³ to \$0.362417 per m³, as shown in Appendix "B".
3. The customer notice in Appendix "C" shall accompany each customer's first bill or invoice following the implementation of this Order.

Issued at Toronto, March 25, 2008.

	All over 1,000 m ³ per month	10.4073 cents per m ³
c)	Gas Supply Charge (if applicable)	Schedule A

Meter Readings

Gas consumption by each customer under this rate schedule shall be determined by monthly meter reading, provided that in circumstances beyond the control of the company such as strikes or non-access to a meter, the company may estimate the consumption each month as of the scheduled date of the regular monthly meter reading and render a monthly bill to the customer thereof.

Delayed Payment Penalty

When payment is not made in full by the due date noted on the bill, which date shall not be less than 16 calendar days after the date of mailing, hand delivery or electronic transmission of the bill, the balance owing will be increased by 1.5%. Any balance remaining unpaid in subsequent months will be increased by a further 1.5% per month. The minimum delayed payment penalty shall be one dollar (\$1.00).

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than NRG, the customer or their agent, must enter into a Bundled T-Service Receipt Contract with NRG for delivery of gas to NRG. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

Unless otherwise authorized by NRG, customers who are delivering gas to NRG under direct purchase arrangements must obligate to deliver said gas at a point acceptable to NRG, and must acquire and maintain firm transportation on all pipeline systems upstream of Ontario.

Effective: April 01, 2008

Implementation: All bills rendered on or after April 01, 2008

NATURAL RESOURCE GAS LIMITED

RATE 3 - Special Large Volume Contract Rate

Rate Availability

Entire service area of the company.

Eligibility

A customer who enters into a contract with the company for the purchase or transportation of gas:

- a) for a minimum term of one year;
- b) that specifies a combined daily contracted demand for firm and interruptible service of at least 700 m³; and
- c) a qualifying annual volume of at least 113,000 m³.

Rate

1. Bills will be rendered monthly and shall be the total of:

- a) A Monthly Customer Charge:

A Monthly Customer Charge of \$150.00 for firm or interruptible customers; or
A Monthly Customer Charge of \$175.00 for combined (firm and interruptible) customers.

- b) A Monthly Demand Charge:

A Monthly Demand Charge of 25.5904 cents per m³ for each m³ of daily contracted firm demand.

- c) A Monthly Delivery Charge:

- (i) A Monthly Firm Delivery Charge for all firm volumes of 3.7310 cents per m³,

- (ii) A Monthly Interruptible Delivery Charge for all interruptible volumes to be negotiated between the company and the customer not to exceed 9.2249 cents per m³ and not to be less than 6.0992 per m³.

- d) Gas Supply Charge (if applicable)

See Schedule A.

- e) Overrun Gas Charges:

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or

- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

2. In negotiating the Monthly Interruptible Commodity Charge referred to in 1(c)(ii) above, the matters to be considered include:

- a) The volume of gas for which the customer is willing to contract;
- b) The load factor of the customer's anticipated gas consumption, the pattern of annual use, and the minimum annual quantity of gas which the customer is willing to contract to take or in any event pay for;
- c) Interruptible or curtailment provisions;
- d) Competition.

3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.3853 cents per m³ for firm gas and 5.7536 cents per m³ for interruptible gas.

4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 6.3515 cents per m³ and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than NRG, the customer or their agent, must enter into a Bundled T-Service Receipt Contract with NRG for delivery of gas to NRG. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

CUSTOMER NOTICE

DATED MARCH 25, 2008.

IMPORTANT INFORMATION ABOUT YOUR GAS BILL

On all bills rendered by NRG on or after April 1, 2008, the price we charge for the gas commodity and transportation portion of your bill will be increasing by \$0.057204 per cubic meter to \$0.362417 per cubic meter. The Ontario Energy Board (OEB) has approved this change to reflect the prices that NRG expects that it will be paying to its gas suppliers through to the end of March, 2009. On your gas bill this cost is on the line entitled "Gas Commodity".

As a regulated utility, NRG is permitted to recover what it pays for the purchase of gas plus any costs reasonably associated with this purchase but with no mark up or 'profit'. The price the utility charges you is based on the forecasted gas and transportation costs to NRG, which are periodically reviewed by the OEB and reconciled with actual costs. The gas commodity portion gets adjusted regularly throughout the year as the price of the gas commodity changes.

How will this price increase impact you? That will depend on the amount of gas that you use. For a typical residential customer who consumes approximately 2,000 cubic meters of gas annually, this price change will cause your annual heating costs to increase by approximately \$115 per year. For customers who have arranged to have their gas supplied by a gas marketer/broker, the price may or may not change depending on the terms of the contract the customer has with the gas marketer/broker.

If you have any questions about this rate change, please do not hesitate to contact us at 519-773-5321. We thank you for continuing to make natural gas your fuel of choice.
