

IN THE MATTER OF ss.57 and 70 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Sched. B;

AND IN THE MATTER OF a proposed Standard Supply Service Code for electricity distributors.

NOTICE OF HEARING

The Ontario Energy Board (“the Board”), on its own motion, will hold a public hearing under section 19(4) of the Ontario Energy Board Act, 1998 (“the Act”) to determine certain matters relating to the obligation of licensed electricity distributors to supply electricity to consumers in accordance with a Standard Supply Service Code.

The draft Standard Supply Service Code issued for consultation by Board Staff in January, 1999 is available on the Board’s website: www.oeb.gov.on.ca or from the Board Secretary at the address given below.

The Board will consider submissions from interested parties on the following issues related to the Standard Supply Service Code:

- the pricing mechanism for standard supply service;
- restrictions on energy procurement by distributors for standard supply service;
- marketing restrictions on retailers who provide standard supply service; and
- the billing mechanism for standard supply service.

Interested parties will be required to provide written submissions to the Board, and may also deliver oral submissions at a hearing before the Board on a date to be determined.

Technical Conference

Prior to the receipt of submissions, the Board will hold a technical conference commencing July 13, 1999. Parties may submit alternatives for consideration at this conference. To give parties an opportunity to fully understand and clarify proposals, intervenors will be allowed to present options and seek clarification prior to making their subsequent submissions to the Board. A transcript of the technical conference will be available to parties and the Board.

Parties submitting alternatives for consideration at the technical conference should ensure that the proposals will satisfy the legislative requirements. Proposals should also take into consideration the requirement of distributors to calculate consumers' bills using the hourly pricing data provided by the Independent Market Operator.

Parties must file their alternative proposals with the Board (15 copies) and with all parties by no later than July 5, 1999.
