25

26 Hi Derek,

27  
28 I'm just following up on some older emails, and not sure what ever  
29 happened to this one. Just FYI, we are making proposals to both of  
30 these customers, and I don't think they will have any problems.  
31 Designs are done or underway as needed. HON can of course make  
32 a proposal also - it ends up customer choice and then OEB approval  
33 where needed. The Telus hook-up might be a problem for us if  
34 they want power in a hurry since we have some line to build yet -  
35 we might need to talk about a temporary hook-up.

36 In any case thanks for the heads-up.

37 Axel

6 Subject: HON offer to connect

7  
8  
9 Hi George, just following up on a conversation we had a couple weeks  
10 ago.

11 HON has been approached on 2 occasions to connect new service to  
12 customers  
13 in Veridian franchise. We agreed, that if the customer approaches us, we  
14 can make an offer.

15 However, I recall you wanting to check whether you would be connecting  
16 these, so before we make an offer, do you intend to connect these?

17  
18 One is: Mr. Bob Clark, Spectrum Developments, 1-800-361-4623. He is  
19 looking for a 120/240V 400A service.  
20 Second is: 400 Amp single phase service for a Tellus Mobility tower on  
21 the  
22 south side of Uxbridge/Pickering townline.

23  
24 please let me know asap.

25  
26 thanks

27
