

VECC INTERROGATORY #17

INTERROGATORY

Reference: The Report, page 4, lines 25-27

Preamble: “dynamic efficiency is achieved through appropriate system planning”

- a) Both the Hydro One Evidence (August 7th, pages 7-9) and the Kema-Quantec Evidence (pages 5-6) outline the system planning process currently used by the distribution sector. Please indicate if and how these processes would have to change in order to achieve dynamic efficiency.

RESPONSE

See the response to Board Staff #5.
