

Vulnerable Energy Consumers' Coalition (VECC) INTERROGATORY #16

Interrogatory

Reference: Hydro One’s Response to Erie Thames Power Lines Corporation.
Application, page 3 (lines 5-7)

Preamble: “The capital contribution required by Networks ... is higher”

Question:

- a) Are the overall connection costs associated with Hydro One supplying Phase 1 of the development also higher?

Response

No.

Networks’ cost to complete the entire development, excluding the civil work, is \$95,534. The capital contribution Networks required from the customer is \$85,734. Erie Thames indicates its total costs were \$150,000 for the entire development and required a capital contribution from the customer of \$42,000.
