

1 **Veridian Connections Inc. INTERROGATORY #4**

2  
3 **Interrogatory**

4  
5 In the first bullet point of Section 5.2 of the Prefiled Evidence Networks states that  
6 overlapping service areas would “Result in increased cost to customers because of  
7 duplication of assets and uncoordinated planning”. Please explain the difference between  
8 “uncoordinated” and “coordinated” planning from a Hydro One perspective. Also, please  
9 explain how Networks undertakes a “normal” coordinated planning exercise with  
10 stakeholders in a Hydro One service or grid area.  
11

12  
13 **Response**

14  
15 Please see Networks’ Exhibit J8-11-9.
