

**Wirebury Connections Inc. INTERROGATORY #3**

**Interrogatory**

Networks' evidence is that its electrical system planning practices would be undermined if the Board approves overlapping service territories.

Reference: p. 3, L10

Please describe how Networks' system planning would be undermined if some of its expected future customers were connected by alternate providers using the same connection and plant design that Networks would have used to connect the same customer.

**Response**

Please see Networks' Exhibit J8-11-9.
