

1 **Wirebury Connections Inc. INTERROGATORY #3 (Hydro One IR)**

2
3 **Interrogatory**

4
5 Does Hydro One believe that new (i.e. unattached or non-metered) customers will always
6 be better served by Hydro One through an extension of its existing network? What are the
7 assumptions underlying this conclusion?

8
9
10 **Response**

11
12 No. Networks believes that customers are best served when the least incremental
13 connection cost (inclusive of upstream costs) is used to connect the new customer and
14 there is no stranding or underutilization of the incumbent LDC's assets serving existing
15 customers.
