

LDC COALITION INTERROGATORY #6

INTERROGATORY

Reference: Evidence of Wirebury Connections Inc., August 7, 2003, Paragraph 12 f)

What categories of assets does Wirebury consider to be "dedicated exclusively to the lands and structures which are the subject of the service area amendment"?

RESPONSE

In Wirebury's view, assets "dedicated exclusively to the lands and structures which are the subject of the service area amendment" would be limited to distribution assets that are used exclusively by a customer, such as a service line or a dedicated transformer. As indicated in Wirebury's response to Board Staff at Ex. J12, T10, S7, the test to determine exclusivity is that the asset would be no longer used or useful if an application for a service area amendment is approved.
