

VERIDIAN CONNECTIONS INTERROGATORY #3

INTERROGATORY

Concerning Wirebury's proposed underlying principles, please explain and clarify the intent of paragraph 12 (f) (and as further described in paragraph 20) and how the process should codify the issue of compensation.

RESPONSE

The intent behind Wirebury's evidence at paragraph 12(f) is that the process for the calculation of any compensation payment to a host distributor be codified. Section 3.2 of the DSC that codifies the connection process for new customers is offered at Paragraph 20 of Wirebury's evidence as an example where the Board has employed a codified process.

In its response to Board Staff, Ex. J12, T10, S7, Wirebury has proposed that the host LDC should be required to demonstrate the entitlement to compensation.
