IN THE MATTER OF the *Ontario Energy Board Act, 1998*,
S.O. 1998, c.15 (Schedule B);

AND IN THE MATTER OF an application by Orillia Power
Distribution Corporation for a Final Order Pre-approving its
individual Conservation and Demand Management Plan.

BEFORE: Gordon Kaiser
Vice Chair and Presiding Member

FINAL ORDER

Orillia Power Distribution Corporation (Orillia Power) has along with 17 other electricity distribution companies, as members of Cornerstone Hydro Electric Concepts Association (CHEC), filed an application with the Ontario Energy Board (the Board) for a Final Order pre-approving its individual Conservation and Demand Management (CDM) Plan. The Board received the application on November 19, 2004 and assigned File No. RP-2004-0203 / EB-2004-0502 to this application.

A Notice of Application and Written Hearing was issued by the Board on December 7, 2004. Orillia Power served and published the Notice as directed by the Board. The intervention period expired on January 1, 2005. There were no intervenors.

On May 31, 2004, the Minister of Energy granted approval to all distributors in Ontario to apply to the Board for an increase in their 2005 rates by the third installment of their

incremental market adjusted revenue requirement (MARR). This approval is conditional on a commitment to reinvest an equivalent amount in CDM initiatives.

On October 5, 2004, the Board issued a Procedural Order (the Procedural Order) which addressed the opening of deferral accounts; the recovery of development expenses; the process for applying for plan approval; and the filing requirements for plan approval. Pursuant to the Procedural Order all electricity distribution companies, including Orillia Power, received authorization to establish a deferral account.

The elements of Orillia Power's CDM Plan are as follows: a customer survey program, an education and promotion program, an energy audit program, a partnership and sponsorship program, a distribution system optimization and implementation program, a metering pilot program, and a web tools and training initiative.

The total budget for the CDM plan is \$207,000. The exact amount of Orillia Power's third installment of incremental MARR is \$206,304.

The Board finds that the activities and programs proposed by Orillia Power qualify as conservation and demand management activities and that the planned investments are eligible for tracking in the deferral account.

The Board approves the expenditure of \$206,304 for implementation of the CDM Plan, which is consistent with the amount of the third installment of Orillia Power's incremental MARR.

The Board requires that Orillia Power file with the Board quarterly and annual reports on the progress of the initiatives included in the approved CDM Plan. The annual reports will be subject to public review.

The Board understands that the approved CDM Plan and the associated budget allocation to the individual programs may be subject to modifications. The Board requires that all modifications be identified in the quarterly and annual reports. In addition, Orillia Power shall apply to the Board for approval for modifications of spending above 20% of the approved budget.

IT IS ORDERED THAT:

1. Orillia Power Distribution Corporation is granted a final approval of the Conservation and Demand Management Plan as submitted for the Board's review in the application received on November 19, 2004. This investment satisfies the Minister of Energy's condition of a financial commitment to reinvest the equivalent of one years incremental market adjusted revenue requirement in conservation and demand management. The approved total budget is \$206,304.
2. Orillia Power Distribution Corporation shall file with the Board quarterly and annual reports on the progress of the initiatives within its conservation and demand management plan.
3. The quarterly reports shall be filed no later than 30 days after the end of each calendar quarter.
4. The annual reports shall be filed no later than March 31 of the following year. The annual reports shall be subject to public review. The annual report shall include a cost benefit analysis on the program included in the conservation and demand management plan.
5. Orillia Power Distribution Corporation shall apply to the Board for approval if cumulative fund transfers among programs exceed 20% of the approved budget.

6. Orillia Power Distribution Corporation may credit the costs of preparing its Conservation and Demand Management application and participation in the hearing including intervenor and Board costs against the amount required to be spent on its Conservation and Demand Management Plan budget.

DATED at Toronto, February 8, 2005.

ONTARIO ENERGY BOARD
