**Note:** This Table of Concordance has been prepared to assist interested parties in identifying the source of each section of Appendix 1 of the proposed revised Transmission System Code relative to Appendix 1 of the July 2000 Transmission System Code. The listing of a source indicates that the subject-matter of a section of one document has been captured in the corresponding section of the other document. It does not imply that the subject-matter has been dealt with in the same manner or in the same terms. A separate Table of Concordance has been prepared for the body of the proposed revised Transmission System Code.
