

**APPENDIX "D" TO  
HYDRO ONE NETWORKS INC.  
RATE ORDER  
BOARD FILE NO. EB-2005-0020/EB-2005-0378  
DATED: April 27, 2006**

**HYDRO ONE DISTRIBUTION  
SCHEDULE OF RETAIL TRANSMISSION RATES FOR RETAIL  
CUSTOMERS  
Effective Date: May 1, 2006**

The following rates shall remain in effect until superseded by further Order or Orders of the Board.

**APPLICABILITY:**

These rates are applicable to Hydro One Distribution Legacy retail customers, who are customers of Hydro One Distribution retail distribution system, excluding those customers previously served by Acquired distribution utilities.

**BILLING DETERMINANTS**

For energy-only metered customers, the billing determinant is the customer's metered or estimated energy consumption adjusted by the total loss factor as approved by the Board and set out in Hydro One Distribution loss factors.

For demand billed customers, loss factors must be applied to the appropriate tariffs. The billing determinant for both the network service rate and the line and transformation connection service rate is the customer's peak demand in the billing period.
