**NOTICE OF APPLICATION AND WRITTEN HEARING
FOR AN
ELECTRICITY DISTRIBUTION RATE CHANGE
AND
NOTICE OF COMBINED PROCEEDING AND HEARING
RELATING TO SMART METERS**

Brantford Power Inc.

Brantford Power Inc. ("Brantford") has filed an application with the Ontario Energy Board (the "Board"), received on January 29, 2007 and amended by way of a letter received on February 19, 2007, under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Schedule B). The Board has assigned the application File No. EB-2007-0510. This Notice contains important information about participation in the hearing associated with the applicant's rate change application ("rate proceeding") and about participation in a combined proceeding relating to rate adjustments for smart meters ("smart meter combined proceeding").

Brantford has applied to the Board to change its distribution rates. The application has been filed generally on the basis of the guidelines set out in the December 20, 2006 "Report of The Board on Cost of Capital and 2nd Generation Incentive Regulation for Ontario's Electricity Distributors," available from the Board as described under "Need More Information?" below. However, the application departs from those guidelines in a material way as follows: Brantford has also requested an accounting order for approval of a deferral account to track expenses related to a capital project to be undertaken in 2007.

The standard electricity bill for residential and small general service customers has four line items: Electricity, Delivery, Regulatory and Debt Retirement Charge. The rate change application affects only the Delivery line of that bill. If approved, a typical residential customer consuming 1,000 kWh per month would experience an approximate decrease of 1% in the electricity bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would experience an approximate decrease of 1%.

Brantford may apply for a specific rate adjustment related to smart meters. This adjustment is referred to as a “smart meter adder”, and represents temporary advance funding to facilitate the acquisition and installation of smart meters through the 2007 rate year. **If a smart meter adder is applied for, the percentage decreases in the electricity bill referred to above do not include the amount of Brantford’s smart meter adder.** The prudence of the amount requested by Brantford for its smart meter adder will not be examined as part of the rates proceeding. It will be dealt with in a separate process at a later date.

As a starting point to that future process, certain general principles will be the subject of a combined proceeding for which a hearing will be held after May 1, 2007. The combined proceeding will involve a number of electricity distributors, and may include or consider Brantford’s smart meter adder. Further information about the treatment of smart meter adders and the nature and scope of the combined proceeding may be found in the January 29, 2007 “Report of the Board on 2nd Generation Incentive Regulation for Ontario’s Electricity Distributors: Addendum for Smart Metering Rates”, available from the Board as described under “Need More Information?” below.

If Brantford wishes to respond to a submission, the response must be filed with the Board and copied to the party that made the submission no later than **7 days** from the date of receipt of the submission.

How to Participate in the Smart Meter Combined Proceeding

If you wish to participate in the smart meter combined proceeding, you must separately notify the Board of your intention to do so even if you are

participating in the hearing on Brantford's rate change application.

Application for intervenor status and cost eligibility must be by letter and received by the Board no later than **10 days** from the date of publication of this Notice or, if you have been served this Notice directly, no later than 10 days from the date of service. If you have notified the Board of your interest in the combined proceeding, you will receive further details regarding participation in, and the timing and conduct of, the combined proceeding once these become available.
