Toronto Hydro

Veridian Corporation

#### Notes

All participating organizations were members at Plenary.

Canadian Solar Industries, Energy Profiles, Great Lakes Power, Guelph Hydro, Northland Power and Ontario Federation of Agriculture participated in first Plenary only.

The wind industry as represented by CanWea members made a one time oral presentation to the Technical Sub-Working Group but were not able to participate on a regular basis.

Several members who participated in more than one Sub-Working Group also met to work on the integration of the work of the four Sub-Working Groups.A13
