

Notice

The Market Surveillance Panel (MSP) is holding a second technical workshop to review sample applications of the proposed Market Power Framework. This second workshop was requested by stakeholders on February 15, 2007, in order to complete the discussion of examples provided at that meeting. See February 15 [presentation](#) [http://www.oeb.gov.on.ca/documents/msp/market_power_framework/market_power_framework_presentation_20070212.pdf].

Date: Wednesday, February 28, 2007
Time: 1:30 P.M. to 3:30 P.M.
Location: IESO Boardroom (Minto)
Address: 655 Bay St., 4th Floor
Toronto, Ontario

Conference Call Information:

Local Dial-In: 416-343-2657
Toll-Free Dial-In: 866-440-8938
Conference ID: 2430319

The first part of the meeting will deal with the proposed treatment of energy-limited generation. The remainder of the meeting will focus on other questions raised by stakeholders, not addressed at the February 15 workshop.

The MSP again encourages stakeholders to submit further questions in advance. If submitted early, questions will be posted on the [Market Power Framework web page](#). [http://www.oeb.gov.on.ca/html/en/industryrelations/msp_marketpowerframework.htm]

At the February 15, 2007 reference was made to a presentation by the Chair of the MSP to the Board of Trade in April 2002. In response to a request for more information, the MSP is posting a companion [background paper](#) [http://www.oeb.gov.on.ca/documents/msp/market_power_framework/market_power_framework_background2002_20070219.pdf] about its approach to monitoring, investigating and reporting in Ontario's Electricity Market. Stakeholders are directed to the discussion in section 3 Investigating Impediments to Effective Competition, in particular The Behaviour of Market Participants, pages 15 and 16.

Those interested in attending (either in person or by phone) and submitting questions should email MACDInbox@ieso.ca or contact Denise Noguchi in advance at 905-855-6308. Jack Lubek at 905-855-6148 or Richard Penn at 905-855-6230 are also available to answer additional questions about the meeting.

The Market Surveillance Panel, a Panel of the Ontario Energy Board, monitors, investigates and reports on activities and behaviour in the IESO-administered markets in Ontario's electricity sector.
