

Estimated Total Bill Impacts for Hydro One Networks						January 28, 2009	
The following estimated bills are provided for information purposes only. They are not intended to represent actual bills but rather to provide an estimate for comparison between Hydro One's service areas. The values in the Electricity column reflect the Regulated Price Plan (RPP) rates that were in effect at that time. Because of rounding, amounts in the sub-total and total columns may be off by one cent.							
The numbers in the chart have been calculated using the following data and assumptions:							
- shows estimated total bill impacts for the Hydro One service areas with distribution rates effective May 1, 2008 and implemented Feb. 1, 2009							
- a residential consumer using 1,000 kilowatt hours per month							
- loss factor adjustment has been applied							
- a consumer who is on the RPP, purchasing their electricity through Hydro One							
				May 1/08 - Oct. 31/08	Nov. 1/08 - April 30/09		
- RPP prices (¢ per kilowatt hour)				5.0 / 5.9	5.6 / 6.5		
- RPP monthly threshold (kWh)				600	1,000		
- GST				5%	5%
