

EB-2012-0033

IN THE MATTER OF the *Ontario Energy Board Act, 1998*,
S.O. 1998, c. 15, (Schedule B);

AND IN THE MATTER OF an application by Enersource
Hydro Mississauga Inc. for an order approving or fixing just
and reasonable rates and other charges for the distribution
of electricity to be effective January 1, 2013.

BEFORE: Cynthia Chaplin
Presiding Member

Paula Conboy
Member

Christine Long
Member

RATE ORDER

Enersource Hydro Mississauga Inc. (“Enersource”) filed an application with the Ontario Energy Board (the “Board”) on April 27, 2012 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B), seeking approval for changes to the rates that Enersource charges for electricity distribution, to be effective January 1, 2013.

On December 13, 2012, the Board issued its Decision and Order on Enersource’s application for 2012 electricity rates. The Board approved an effective date of January 1, 2013 with rates implemented February 1, 2013 and the recovery of forgone revenue for the month of January 2013. Enersource filed its draft Rate Order and supporting

documentation on December 13, 2012. The School Energy Coalition (“SEC”), Energy Probe Research Foundation (“Energy Probe”) and Board staff filed comments on the draft Rate Order on December 31, 2012, January 3, 2013 and January 7, 2013 respectively. On January 7, 2013 Enersource filed a revised draft Rate Order (“revised DRO”) including supporting material and replies to staff and intervenor comments.

The Board accepts the updated information contained in the revised DRO Order, with the following exceptions.

Low Voltage Rates

The Low Voltage rates proposed by Enersource in the revised DRO are calculated based on an 11 month period. This is the same approach Enersource used in the initial DRO and Enersource confirmed that it used 11 months to account for the revenue forgone for the month of January, 2013. Enersource did not reply to Board staff’s assertion that the only forgone revenue approved for recovery was the revenue associated with base rates (i.e. the base revenue requirement). Enersource did agree, however, with Board staff’s comment that Enersource would not be harmed with a rate based on 12 months since any under-recovery would be recorded in account 1550-LV Variance Account. The Board views 12 months, or a full rate year, as the appropriate period to derive the Low Voltage rate. The Board concurs with Board staff that an 11 month based Low Voltage rate results in a higher rate than otherwise would be the case, and this rate would be in effect until Enersource’s next COS application. Accordingly, the Low Voltage rates approved in this Rate Order are those based on a 12 month period and are those reflected in table 5 of the revised DRO under the column heading titled “*As Per Decision*”.

Stranded Meter Rate Rider Mitigation

Enersource in the initial DRO and the revised DRO calculated the Stranded Meter Rate Rider based on 2 different disposition periods, 11 months per the Board’s Decision and the alternative of 47 months. Enersource proposed the alternative of 47 months in order to reduce the total bill impact for the GS < 50 kW class, which would otherwise be 11.2% for RPP customers and 11.9% for non-RPP customers.

The Board is not persuaded that the level of increase warrants an adjustment to the disposition term. The Board’s Decision and Order, based on the record of the EB-2012-0033 proceeding, also clearly specifies an 11 month disposition period.

Accordingly, the Stranded Meter Rate Rider contained in this Rate Order will reflect an 11 month disposition period.

Tariff of Rates and Charges

It recently came to the attention of the Board that Enersource included the following new wording in its proposed 2013 Tariff of Rates and Charges:

“Notwithstanding the tariff of rates and charges listed below, the provisions of individually negotiated contracts with certain large use customers will prevail.”

The Board has determined that on the basis of the record it is premature to approve the inclusion of such wording in the 2013 Tariff of Rates and Charges.

The Board has reviewed the information provided in support of the revised DRO. As adjusted by the Board’s direction in this Rate Order regarding the calculation of the Low Voltage rates and reflecting an 11 month Stranded Meter Rate Rider, the Board is satisfied that the Tariff of Rates and Charges attached to this Rate Order as Appendix A accurately reflects the Board’s Decision.

In addition to the approval of Enersource’s distribution rates and charges, the Board also approved the recovery of certain amounts regarding Enersource’s Green Energy Plan. As per the Decision and Order, a portion of these funds are to be recovered from all ratepayers in the province. After rendering this Rate Order, the Board will establish a payment process regarding the remittance of funds on a monthly basis from the Independent Electricity System Operator to Enersource.

THE BOARD ORDERS THAT:

1. The Tariff of Rates and Charges for Enersource Hydro Mississauga Inc. appended to this Rate Order is final effective January 1, 2013 and implemented February 1, 2013 for electricity consumed or estimated to have been consumed on and after such date.
2. Enersource Hydro Mississauga Inc. shall notify its customers of the rate changes no later than with the first bill reflecting the new rates.
3. Enersource shall establish the following deferral account in accordance with Appendix B, effective January 1, 2013:

- Account 1508, Other Regulatory Assets, sub-account OPEB Deferral Account

DATED at Toronto, January 24, 2013

EB-2012-0033

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to all residential services including, without limitation, single family or single unit dwellings, multi-family dwellings, row-type dwellings and subdivision developments. Energy is supplied in single phase, 3-wire, or three phase, 4-wire, having a nominal voltage of 120/240 Volts. There shall be only one delivery point to a dwelling. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. The amount of electricity consumed by unmetered connections will be based on detailed information/documentation provided by the device's manufacturer and will be agreed to by Enersource Hydro Mississauga Inc. and the customer and may be subject to periodic monitoring of actual consumption. Eligible unmetered loads include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

STANDBY DISTRIBUTION SERVICE CLASSIFICATION

This classification refers to an account that requires Enersource Hydro Mississauga to provide distribution service on a standby basis as a back-up supply to an on-site generator. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

MONTHLY RATES AND CHARGES – Delivery Component

A Standby Service Charge will be applied for a month where standby power is not provided. The applicable rate is the approved Distribution Volumetric Rate of the applicable service class and is applied to gross metered demand or contracted amount, whichever is greater. A monthly administration charge of \$200, for simple metering arrangements, or \$500, for complex metering arrangements, will also be applied.

Implementation Date February 1, 2013

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2012-0033

STREET LIGHTING SERVICE CLASSIFICATION

This classification refers to an account for roadway lighting. Street Lighting is unmetered where energy consumption is estimated based on the connected wattage and calculated hours of use using methods established by the Ontario Energy Board. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

APPENDIX B

TO RATE ORDER

Enersource Hydro Mississauga Inc.

EB-2012-0033

DATED: January 24, 2013

Enersource Hydro Mississauga Inc. Accounting Order

EB-2012-0033

January 24, 2013

For greater clarity, this accounting order is intended to reflect the Board's Decision in EB-2012-0033, dated December 13, 2012. Enersource Hydro Mississauga Inc. ("Enersource") shall establish the following deferral account effective January 1, 2013:

1508 Other Regulatory Assets, Sub-account OPEB Deferral Account

Enersource shall establish the Other Post-Employment Benefits ("OPEB") Deferral Account to record the cumulative actuarial gains or losses in Enersource's post-retirement benefits in Account 1508, Other Regulatory Assets, Sub-account OPEB Deferral Account. Enersource will not record any actuarial gains or losses related to OPEB, incurred prior to 2013. The deferral account shall be adjusted, subject to materiality, to record changes in the actuarial gains or losses in Enersource's post-retirement benefits as supported by the annual updated actuarial valuation prepared for Enersource. This actuarial valuation is received by Enersource at the end of each year.

The deferral account is established in the absence of Board policy on the OPEB issue and will continue until the earlier of:

- A decision by the Board to implement a policy in respect to the OPEB which differs from the approach approved here, and
- Enersource's next rebasing application.

The balances in this account, supported by appropriate documentation, will be reviewed by the Board for prudence and future disposition, subject to materiality, at Enersource's next cost of service application.

No carrying charges shall be recorded on this account.

Sample Journal Entries

In the event that an actuarial gain is recorded at the end of the year, and is material, the following general ledger entries will be recorded

(assuming a \$100 actuarial gain):

Debit	OPEB Liability	\$100	Balance Sheet
Credit	Other Comprehensive Income – OPEB Adjustment	(\$100)	Income Statement
<i>To record actuarial gain in OCI.</i>			

Debit	Other Comprehensive Income – OPEB Adjustment	\$100	Income Statement
Credit	1508 Other Regulatory Assets, Sub-account OPEB Deferral Account	(\$100)	Balance Sheet
<i>To record refundable amount in proposed deferral account.</i>			

In the event that an actuarial loss is recorded at the end of the year, and is material, the following general ledger entries will be recorded (assuming a \$100 actuarial loss):

Debit	Other Comprehensive Income – OPEB Adjustment	\$100	Income Statement
Credit	OPEB Liability	(\$100)	Balance Sheet
<i>To record actuarial loss in OCI.</i>			

Debit	1508 Other Regulatory Assets, Sub-account OPEB Deferral Account	\$100	Income Statement
Credit	Other Comprehensive Income – OPEB Adjustment	(\$100)	Balance Sheet
