Rosemarie T. Leclair
Présidente-directrice générale

October 27, 2015

To our stakeholders:

The Ontario Energy Board's 2015-2018 Business Plan is now available on our website at www.ontarioenergyboard.ca.

Our 2015-2018 Business Plan is a continuation of our strategic direction established over the last few years to ensure that regulation of the energy sector is focused on delivering value to consumers.

In developing the plan, we have been mindful of the pace of change enabled by significant technological advancements which are affecting how energy is produced, transported and consumed. With a view to readiness for the future, our work over the next three years will focus on four broad objectives:

- Empowering consumers;
- Advancing utility performance;
- Enabling access to competitive energy choices; and
- Enhancing regulatory effectiveness

In achieving our business plan goals, we rely on the expertise and collaboration of our dedicated employees and Board members. I would also like to acknowledge the valuable insight and support of our energy stakeholder community as we build our new stakeholder engagement framework launched earlier in the year. Much work is already underway with our Chair's Advisory Roundtable, our technical standing committees and the recent Energy Leaders Sector Forum.

We look forward to continuing to advance our vision of delivering value to the energy consumers we serve.

Sincerely,

A handwritten signature in black ink, appearing to read 'Rosemarie T. Leclair'. The signature is fluid and cursive.

Rosemarie T. Leclair
Chair & CEO
