

June 30, 2010

Kirsten Walli, Board Secretary
Ontario Energy Board
P.O. Box 2319, 27th Floor
2300 Yonge Street
Toronto, ON
M4P 1E4

Attention: Ms. Walli

**Re: Comments on the distributor-specific CDM targets that have been proposed by the Ontario Power Authority.
Board File No. EB-2010-0216**

Espanola Regional Hydro Distribution Corporation ("ERHDC") appreciates the opportunity to comment on the Board's proposed distributor-specific electricity conservation and demand management targets, Board file number EB-2010-0216. ERHDC proposes the 2014 summer peak demand savings targets as listed in appendix D page 49 and 50 should be rounded to one decimal place and applied consistently to all distributors. ERHDC's 2014 summer peak demand savings target in Appendix D is listed as 1 MW and would be more accurately stated as 0.5 MW if rounded to one decimal place. As currently stated the target for a utility the size of ERHDC is approximately double what it should be.

Sincerely,

Jennifer Uchmanowicz
on behalf of Espanola Regional Hydro Inc
