**Re: Comments on the distributor-specific CDM targets that have been proposed by  
the Ontario Power Authority.  
Board File No. EB-2010-0216**

PUC Distribution Inc. appreciates the opportunity to comment on the Board's proposed distributor-specific electricity conservation and demand management targets, Board file number EB-2010-0216. PUC Distribution proposes the 2014 summer peak demand savings targets as listed in appendix D page 49 and 50 should be rounded to one decimal place and applied consistently to all distributors. PUC Distribution Inc.'s 2014 summer peak demand savings target in Appendix D is listed as 6 MW and would be more accurately stated as 5.6 MW if rounded to one decimal place.

Sincerely,
