

Notes for Version 2 of the working papers

This version of the TFP and BM calculation working papers contains the following changes:

A change in Total and OM&A Cost as a result of the corrected LV data. The new data are highlighted on the OM&A calculation sheet.

A change in the BM Database resulting from the forgoing data change

New econometric weights from the cost model. The revised estimates and weights are on the TFP calculations sheet.

Revised output quantity indexes as a result of the new weights

Revised productivity as a results of the revised output quantity index

Revised bilateral output indexes used in the unit cost work

Revised Unit Cost results based on the revised OM&A cost and bilateral output index

An additional file supporting the revised LV data is included in Part II of the working papers

The expanded working papers supporting tables 24 and 25 are included in Part II of the working papers in place of the previous bilateral index spreadsheet.

Part I of the working papers remains unchanged
