# Today's Main Objectives

- Review and discuss the *Storage Working Group Report* recommendations and next steps
- Review and discuss the *Energy Data Access Working Group's* recommendations and next steps

# Storage Working Group

- Working Group has developed a document identifying barriers to storage, solution options, options to achieve solutions
- Seeking views of Advisory Committee on recommendations
- Expected that Advisory Committee will review and assess Working Group recommendations and provide the OEB with advice by end of June 2014
- OEB will share the advice with the IESO, OPA, and Ministry of Energy as a number of the possible solutions may require action by involve these other parties

# Low Volume Customer Near Real-time Data Access Working Group

- Working Group has developed a document identifying state of data access, potential value, and options going forward
- Seeking views of Advisory Committee on report and recommendations
- Expected that Advisory Committee will review and assess Working Group report and recommendations and provide the OEB with advice by end of June 2014

# Future Meetings & Other Business
