Re: **Distributor Gas Supply Planning Consultation ([EB 2015-0238](#))**

The intent of this consultation is to gain insight about the distributors' gas supply planning process framework and to highlight the impact of the process differences between distributors on gas consumers in the province of Ontario.

On December 3rd, 2015, participants met at the OEB to discuss the content and format of a side-by-side comparison of the gas supply planning processes. At that forum consensus was reached and resulted in the development of a *Draft Table of Contents*. Participants were asked to review the Draft and provide written comments by December 18, 2015. The OEB amended and subsequently posted the *Final Table of Contents* in on January 8, 2016. Both Distributors undertook to create a document that articulated the similarities and differences between their planning approaches. Participants have had an opportunity to provide written comments regarding the content. Comments have been incorporated into the document, it is attached to this letter, for reference,

As agreed at the initial conference of December 3rd, 2015, a follow up conference has been scheduled for March 22nd 2016. Attached to this letter is the Agenda for the forum (see details below). Participants and distributors will have the opportunity to discuss the comparison document developed by the distributors.
