

## CONSIDERING A SWITCH? COMPARE PRICES FIRST

This price comparison sheet can help you think about what your natural gas prices will be if you decide to buy your gas from the gas marketer that gave you this form. It shows you what an average household pays for natural gas when buying it from their utility and what that same average household would pay if it buys natural gas at the price offered by the gas marketer.

Table A and Table B below compare prices for an average residential customer who uses 3,064 m<sup>3</sup> per year. It assumes that usage is the same every month. However, the amount of natural gas you actually use in each month changes throughout the year. If your actual monthly natural gas use is different, your monthly gas supply and transportation costs will also be different.

To compare prices based on your own natural gas use, you can use your current bill and the online bill calculator on the Ontario Energy Board’s website.

### WHICH PRICE WORKS BETTER FOR YOU?

If you purchase your natural gas from Enbridge Gas Distribution Inc. (Enbridge), your natural gas prices are reviewed and approved by the Ontario Energy Board, the independent regulator, and can change every four months (January 1st, April 1st, July 1st and October 1st). Table A below shows Enbridge’s natural gas prices in effect today. The monthly gas supply and transportation costs shown are for the **cost of the natural gas** that you use and for **related costs to deliver it**.

Table B below shows you the price offered by the gas marketer and will also show you whether transportation costs are included in the contract you are being offered or whether you would continue to pay the utility price for transportation. You will also have to pay **customer charges and charges for delivery (including storage) to your utility** every month, as well as any taxes payable on your total monthly bill.

Table A: Prices if you purchase natural gas from Enbridge	
Natural Gas Prices	Prices
<b>Gas Supply</b> 255 m <sup>3</sup> x 13.0967 cents	\$33.40
<b>Transportation</b> 255 m <sup>3</sup> x 6.4714 cents	\$16.50
<b>Total</b>	<b>\$49.90</b>

Table B: Contract Price offered by [gas marketer name]. This information has been prepared by the gas marketer.
