The Ontario Energy Board

PROTECTING YOU

The Ontario Energy Board (OEB) is the independent regulator protecting Ontario's electricity and natural gas consumers.

This information was prepared by the OEB. Please read it carefully.

The Facts

You Do Not Have To Renew or Extend A Contract.

- You have a choice: You may decide to renew or extend your energy contract or you can go back to buying your energy from your electricity and natural gas utilities.
- Your home will have natural gas or electricity whether or not you renew or extend your contract.
- With, or without, an energy contract, you will still be eligible for conservation and other programs from government or your utility.

Savings Are Not Guaranteed .

- The OEB does not set prices included in the energy retailer's contract. Make sure you understand what you will pay under the renewed or extended contract.

Energy Retailers Are Not Your Utility, The Government or The OEB.

Before You Renew or Extend A Contract

WHAT YOU NEED TO KNOW

Do Your Homework. Don't Be Pressured.

The energy retailer must give you the following documents. Take the time to read all the information.

- The renewed or extended energy contract.
- The renewal or extension form that describes any changes to your current energy contract.
- Price Comparisons, one for electricity and one for natural gas.

If these documents were not provided to you, call the OEB.

Automatic Renewal or Extension Is Not Allowed.

- An energy contract cannot be renewed or extended without your agreement.
- If you want to renew or extend your contract, you have to send signed copies of the renewal or extension form, this Disclosure Statement and the Price Comparisons back to the energy retailer. Or the energy retailer can ask you to renew or extend by telephone.

There Will Be Other Charges.

An energy contract only applies to part of your bill.

- Even if you renew or extend the contract, you still have to pay other charges to your utility companies to have your natural gas and electricity delivered to your home.
- The Global Adjustment (GA) accounts for the differences between the market price of electricity and the rates paid to regulated and contracted generators, and for conservation programs.
- All electricity customers pay a portion of the GA. If you renew or extend the contract, you will continue to see the GA itemized as a separate line on your electricity bill.

Remember, You Are Entering Into A Legal Agreement.

- The renewed or extended contract is a legal agreement between you and an energy retailer. When you renew or extend a contract, you have rights and you also have responsibilities.

You Can Change Your Mind

You can cancel the renewed or extended contract with no penalty:

- Within 14 days after you renewed or extended the contract by telephone or by sending the renewal or extension form and other documents back to the energy retailer.
- Within 30 days after you receive your second bill under the renewed or extended contract. You will still have to pay your bill.

You can cancel at any other time but may have to pay a cancellation fee. Read the renewed or extended contract and know the cancellation rules and cost.

Use The OEB's Online Bill Calculator To Compare Prices

Before you renew or extend your contract, get a current price comparison. Use your own utility bill, the contract price offer and the OEB's bill calculator.
