Subject: OPG Comments - MSP Report Changes

Pursuant to the MSP's request for feedback on its proposed changes to its Market Monitoring Reports, below please find comments from Ontario Power Generation Inc. OPG appreciates the opportunity to provide comments on this subject to the Panel.

OPG agrees with the general direction that the Panel has proposed. While the Reports are useful and contain valuable insights, OPG appreciates that all entities need to re-evaluate how they perform their work, particularly in these cost-constrained times. As such, reducing the frequency, breadth and depth of Reports is a prudent course of action in OPG's view.

The recommendation to move to one "major" and one "minor" report per year represents a reasonable path forward, as it reduces overall resource requirements while still providing most of the information that participants would like to see. Specifically, OPG supports the changes indicated in the proposed Table of Contents included in the consultation materials provided. Additionally, OPG recommends retaining many of the tables within the statistical appendix as they provide useful information that does not appear to be available in other IESO reports.

In an attempt to be of assistance, the following list represents tables that OPG believes could be discontinued with little or no impact to most stakeholders:

* A-5, A-6, A-8, A-9, A-10, A-12, A-28, A-29, A-30, A-31, A-34, A-35, A-36, A-37

Again, thank you for the opportunity to comment on these proposed changes. Should additional information be required, we are happy to discuss.

Best Regards,

Colin Anderson | Director, Ontario Regulatory Affairs | Ontario Power Generation T
