Subject: MSP Request for Comments on Proposed Changes to Reporting

Hello,

In reviewing the proposed changes to market monitoring reporting, my colleagues at Scotia Capital and I request the following items not be removed from the report:

- Section 5.2: Congestion at Interties (and relevant subsections)
- Table A-4: Outages, May 2007 - April 2009
- Table A-7: Ontario Consumption by Type of Usage*,
- Table A-11: Total Hourly Uplift Charge by Component,
- Table A-13: Baseload Supply Relative to Demand and HOEP, Off-Peak,
- Table A-14: Baseload Supply Relative to Demand and HOEP, On-Peak,
- Table A-17: CMSC Payments, Energy and Operating Reserve,
- Table A-18: Share of Constrained On Payments for Energy by Type of Supplier,
- Table A-23: Share of Real-time MCP Set by Resource Type,
- Table A-24: Share of Real-time MCP Set by Resource Type, Off-Peak,
- Table A-25: Share of Real-time MCP Set by Resource Type, On-Peak,
- Table A-26: Resources Selected in the Real-time Market Schedule,
- Table A-27: Share of Resources Selected in Real-time Market Schedule,
- Table A-28: Offtakes by Intertie Zone, On-Peak and Off-Peak, May 2007 – April 2009
- Table A-29: Injections by Intertie Zone, On-Peak and Off-Peak, May 2007 – April 2009
- Table A-30: Net Exports, May 2007 – April 2009

Furthermore, the current level of detail and reporting frequency of these reports is appropriate and timely, and the MSP semi-annual reports (for the above measures) provide useful summaries for market participants which are not available in summary, or in some cases at all, from the IESO.

Regards

Chris Bozek
