Re: Revision to Guideline G-2008-0001 - Electricity Distribution Retail Transmission Service Rates

Attached is a revision to Guideline G-2008-0001 - Electricity Distribution Retail Transmission Service Rates. This guideline outlines the information that the Board requires an electricity distributor to file for approval to adjust its retail transmission service rates. It should be used for both incentive regulation mechanism ("IRM") and cost of service based rate applications for 2010 rates.

This update incorporates an increase in the Ontario Uniform Transmission Rates effective July 1, 2009. Further increases are expected to be effective January 1, 2010. Updates to this guideline will be issued as required.

Yours truly,
