

Monitoring Report Smart Meter Deployment and TOU Pricing – June 2012

August 1, 2012

This report summarizes the activities by licensed distribution companies with respect to the implementation of smart meters and time-of-use (TOU) pricing for Regulated Price Plan (RPP) consumers during the period June 1, 2012 through June 30, 2012.

- As of June 30, 2012 there were 4,770,289 installed smart meters, 4,424,439 meters enrolled with the MDM/R (17,658 added in June) and 4,258,094 customers on TOU billing (77,797 added in June).
- That is, as of June 30, 2012 99% of RPP eligible consumers have a smart meter installed, 92% have a smart meter that is enrolled with the MDM/R and 89% are on TOU pricing.
- In its monthly report, the SME states that it “continues to effectively support distributor enrolment and the implementation of TOU billing under the Board’s TOU mandate.”

Background

On August 4, 2010 the Board issued a determination that set mandatory dates by which distributors must complete the implementation of time-of-use (TOU) billing. The Board’s determination requires that a distributor commence TOU billing of consumers with the first billing cycle following the mandatory date, this recognizes that distributors may implement TOU billing as a practical matter with the first bill to a consumer after the mandatory date. There are three important activities that a distributor must undertake to implement TOU pricing. These three activities are meter installation, smart meter enrolment with the MDM/R (Meter Data Management Repository), and activation of TOU pricing no later than the first billing cycle following a distributor’s mandatory TOU date.

In order to monitor progress towards meeting the requirements of the determination, the Board is requiring distributors to submit monthly progress reports. Further, the Board is also requiring the Smart Meter Entity (SME) to submit monthly reports regarding its status and readiness in supporting the implementation of TOU billing.

The remainder of this report provides a summary of the activities undertaken by licensed distribution companies and the SME reflecting the mandatory TOU implementation requirements as June 30, 2012.

Distributor Summary

- As of June 30, 2012 there were 4,770,289 installed smart meters, 4,409,427 meters enrolled with the MDM/R and 4,258,094 customers on TOU billing.
- As of June 30, 2012, 71 distributors (up from 70 in May 2012) were billing some or all of their customers TOU prices. A list of these distributors is below. 54 distributors have completed TOU implementation and are no longer submitting monthly progress reports.
- Due to the upgrade of the MDM/R to R7.2 the following distributors reported to the Board that they missed their TOU dates of December 2011, January or February 2012: Bluewater Power Distribution, Cambridge and North Dumfries Hydro Inc., Canadian Niagara Power, Eastern Ontario Power Inc., Greater Sudbury Hydro, Grimsby Power Inc., Port Colborne Hydro Inc., Peterborough Distribution Inc., Rideau St. Lawrence Distribution and Westario Power Inc.
 - Since these distributors were prepared internally for TOU implementation and were delayed solely due to factors beyond their control they were not required to file applications for extensions.
 - As will be discussed below, R7.2 was deployed at the beginning of April. Bluewater Power Distribution, Canadian Niagara Power, Eastern Ontario Power Inc., Grimsby Power Inc., Port Colborne Hydro Inc., Rideau St. Lawrence Distribution, and Westario Power Inc. have since commenced or completed TOU billing; Board staff is monitoring Cambridge and North Dumfries Hydro Inc., Greater Sudbury Hydro, and Peterborough Distribution Inc..¹
- In a letter to Board staff, EnWin Utilities Ltd. indicated it “will not be in a position to select a replacement CIS, implement that CIS and roll-out TOU by December 1, 2012. What is not yet clear is the date by which EnWin will be in a position to roll-out TOU commodity rates to all of its ratepayers. That date is dependent upon the outcome of the CIS procurement process, which has not yet concluded. Once the replacement CIS is selected and the implementation timeline is known, EnWin intends to prepare and file an application for a further temporary exemption from Mandatory TOU with all due haste and, in any event, in advance of the expiry of its current exemption.”

¹ Peterborough Distribution does have some customers on TOU but this is from a pilot project pre-dating mandatory implementation and these customers are not being billed through the MDM/R as required; Peterborough Distribution has not yet begun implementing TOU billing via MDM/R for its customers.

- A total of 31 distributors (representing 935,576 customers) have received an extension from the Board on their mandatory TOU date.
- A total of 11 distributors received partial exemptions for limited numbers of their RPP eligible customers based on technical and/or operational reasons.
- Of the 42 distributors granted full or partial extensions by the Board, 29 have now completed the transition to TOU. A list of these distributors is below.

Smart Meter Entity (SME) Summary

In its monthly report, the SME states that it “remains confident that with ongoing tuning, planned infrastructure improvements and collaborative support of LDCs, the MDM/R will continue to offer a stable system and effectively support LDCs time-of-use implementation plans and ramp up of meters to full provincial volumes.”

- With regards to the Measurement Canada 2011 Solution, EnergyIP Release 7.2 was promoted to the MDM/R production environment April 13-15, 2012.
 - The SME states that as of June 30, 2012 “35 LDCs had transitioned to the new billing interface to enable them to receive register reads for billing. Based on information submitted by LDCs, we expect to have over 70% of the LDCs enabled to receive register reads for billing by the end of August 2012.”
 - Further, they note “as LDCs operate their business processes with Release 7.2 and the new billing interface, the IESO is helping LDCs with their transition by responding to issues that they raise. The number of reported issues has diminished as LDCs have completed a full billing cycle under the new software.”
- Board staff is closely monitoring progress through regular communication with the SME.

Distributor Progress in Implementation

	Previous Total	Added This Period	Current Total	Percent of RPP Eligible Consumers as of June 30, 2012
Smart Meters Installed	4,761,100	9,189	4,770,289	99%
Smart Meters Enrolled with MDM/R	4,406,781	17,658	4,424,439	92%
Customers on TOU Billing	4,180,297	77,797	4,258,094	89%

Distributor Progress in MDM/R Enrolment

	Previous Total	Added this Period	Current Total
LDCs in Enrolment Testing	0	0	0
LDCs in Production (completed enrolment testing)	71	0	71

Distributors in the Process of Transitioning Customers to TOU Billing

	Distributor	RPP- Eligible Customers	Customers on TOU Billing	% of Customers on TOU Billing

Approved Applications for Extensions (full and partial)

Transition to TOU in Progress

Distributor	Original Mandatory TOU Date	New Mandatory TOU Date	Number of RPP Eligible Customers Affected ²
Algoma Power Inc.*	Jun-11	Jul-12	11,551
Bluewater Power Distribution	Oct-11	Jan-12	35,259
Cambridge and North Dumfries Hydro	Oct-11	Feb-12	50,295
Canadian Niagara Power Inc. *	Dec-11	Jan-12	15,517
Eastern Ontario Power Inc.*	Feb-12	Feb-12	3,494
EnWin Utilities Ltd.	Jun-11	Dec-12	83,727
Enersource Hydro Mississauga Inc.	Jun-11	May-12	188,787
Greater Sudbury Hydro Inc.	Jun-11	Dec-11	46,040
Hydro One Networks Inc. (partial)	Jun-11	Est. late 2012	150,000
Oakville Hydro Electricity Distribution (partial)	Jul-11	Mar-12	4,586
Port Colborne Hydro Inc.*	Dec-11	Jan-12	9,060
Wasaga Distribution Inc.	Jun-11	Nov-11	12,020
Westario Power Inc.*	Sep-11	Dec-11	21,747

² This column reflects the number of RRP eligible customers affected *at the time the application was submitted* to the Board. Due to customer growth/fluctuation over time, this figure may differ slightly from each LDCs *current* number of RPP eligible customers noted elsewhere in this report.

* Algoma Power Inc., Canadian Niagara Power: Fort Erie, Eastern Ontario Power, and Port Colborne are all owned by FortisOntario. These distributors are working in association with Grimsby and Westario Power and jointly filed an application for extension.

Approved Applications for Extensions (full and partial)

Transition to TOU Complete

Distributor	Original Mandatory TOU Date	New Mandatory TOU Date	Number of RPP Eligible Customers Affected
Brantford Power Inc.	Jul-11	Nov-11	37,286
Burlington Hydro Inc.	Jul-11	Jan-12	63,424
COLLUS Power Corp.	Jul-11	Dec-11	15,465
Cooperative Hydro Embrun Inc.**	Jun-11	Jan-12	1,780
Essex Powerlines Corp.	Jun-11	Dec-11	27,850
Espanola Regional Hydro Distribution Corp. (partial)	Oct-11	Mar-12	99
Festival Hydro Inc.	Sep-11	May-12	19,335
Grimsby Power Inc.*	Sep-11	Dec-11	10,052

	Jun-11	Aug-12	2,482
Haldimand County Hydro Inc. (partial)	Sep-11	Jan-12	456
Hydro 2000 Inc.**	Oct-11	Jan-12	1,187
Kitchener-Wilmot Hydro Inc. (partial)	Jun-11	Jan-12	6,600

** Cooperative Hydro Embrun, Hydro 2000, Ottawa River Power and Renfrew Hydro are working together to implementing TOU billing and filed a joint application for an extension. This was Cooperative Hydro Embrun's second extension application. Cooperative Hydro Embrun had previously applied for, and was granted, an extension from their original date of June 2011 to October 2011 (to align with Ottawa River Power's original TOU date).

³ In separate applications Guelph Hydro requested and was granted partial extensions for two different groups of customers each group having different reasons for needing an extension.
