| RRR 2.1.4.1 | ESQR | IMPORTANT RELATED TERM(S) | COMMON MISTAKES TO AVOID |
|---|---|---|---|
| .7 | DSC 7.8 Written Responses to Enquiries | DSC 7.1 for definition of "qualified enquiry". | ▪ Some distributors do not follow the definition of "Qualified Enquires" to track events for which the ESQR "Written Response to Enquiries" is measured. This leads to a situation where the distributor is unable to show that all qualified enquiries are responded to by the distributor.<br>▪ Some distributors do not track the time taken for events requiring a written response. |
| .8 | DSC 7.9 Emergency Response | DSC 7.1 for definition of "emergency".<br><br>DSC 7.9.4 for definition of "response". | ▪ Some distributors do not follow the definition of emergency in the DSC in indentifying an emergency situation.<br>▪ Some distributors do not track the arrival time of the field crew at an emergency site. |

4. Distributors are expected to track a number of events in order to measure service quality requirements. The tables below provide a sample list of individual events to be tracked related to the reporting of ESQRs. There may be additional events that need to be tracked; this is not meant to be comprehensive list for all distributors. For clarification of the meaning of the words within quotation marks, please refer to Chapter 7 of the DSC (see Appendix 3).

| **RRR 2.1.4.1.1 (Low Voltage)** | |
|---|---|
| ESQR | Connection of New Services |
| Track | 1. Date "new service" request for "low voltage" connection received.<br>2. Date "service conditions" met.<br>3. Date "new service" connection completed. |
| Calculation | 1. Total requests in year for which "service conditions" were met (Denominator).<br>2. For the total requests calculated in 1 above the number of requests that were connected within 5 business days (Numerator). |
| DSC Requirement | 90% or more |

## Instructions

1. To submit this filing, the current opening balance on the 2.1.1 form must equal the closing balance as reported in your 2.1.1 filing for the previous quarter.
2. The closing balance from the previous quarter filing travels to the opening balance on the date the current form is generated. If the closing account balance of the previous quarter has changed in your general ledger since you filed the information and the change is not material enough to justify a revision to the previous quarter's 2.1.1 filing, make a manual entry in the "Other Adjustments this Period" column to report the correct closing balance for the current quarter.
3. Debit amounts are reported as positive numbers and credit amounts are reported as negative numbers.
