**Re: Release of Regulated Price Plan Pilot Meta-Analysis Final Report  
Ontario Energy Board File No. EB-2016-0201**

---

The Ontario Energy Board (OEB) is releasing the [Regulated Price Plan \(RPP\) Pilot Meta-Analysis Final Report](#) ("Final Report") and associated [Output Data Sheets](#). This report provides an analysis of the results of four pilot projects testing ten alternative RPP price plans and non-price features, along with recommendations stemming from that analysis.

### **Background**

The OEB launched four pilot projects testing ten alternative RPP price plans and non-price features. All pilots have concluded and the final results reports have been released on the [RPP Roadmap website](#). The OEB procured Guidehouse to conduct a meta-analysis of the RPP pilot results and provide evidence-based recommendations regarding new or modified pricing plans and non-price tools that may be effective in furthering the policy objectives set out in the RPP Roadmap. The results of this analysis are described in the Final Report and associated Output Data Sheets.

### **Next Steps**

The OEB intends to hold a stakeholder meeting where the results of the Final Report will be presented and interested parties will have an opportunity to ask questions. Further details on meeting logistics and agenda will be provided in due course.

Sincerely,

Carolyn Calwell  
Chief Corporate Services Officer & General Counsel
