

Mapping of Enbridge Gas Redacted Proposals Against Report

Table 3 in the OEB’s “Report to the Minister of Energy, Northern Development and Mines and to the Associate Minister of Energy: Potential Projects to Expand Access to Natural Gas Distribution” includes an alphabetical listing of the 210 project proposals included in the Report. EPCOR Natural Gas Limited Partnership and Lakeshore Natural Gas Inc. submitted each redacted proposal as a stand-alone document. Enbridge Gas, however, submitted its 207 redacted proposals in 8 batches. Some of the names of Enbridge Gas Inc.’s project proposals as listed in Table 3 of the Report differ from the names of the project proposals submitted in the redacted versions of the project proposals provided by Enbridge Gas Inc. The OEB has prepared this table mapping each of the project proposals included in Table 3 of the Report to the project proposals contained in each batch of proposals submitted by Enbridge Gas Inc. All other data in Table 3 matches the data as it appears in the redacted project proposals.
