Compare Prices**

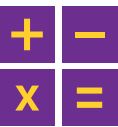

Understanding the Price Comparison

This Price Comparison compares the price businesses pay on the Electricity line of the bill from their utility to the price of electricity offered by the energy retailer. This is not a total bill comparison.

Businesses that purchase their electricity from their utility can choose to pay either Time-of-Use (TOU) or Tiered prices. **Check your latest bill or contact your utility to see which price structure you are currently on. These prices can change every May and November.**

Table A shows TOU prices and Table B shows Tiered prices. Both are billed by your utility and set by the Ontario Energy Board (OEB). Table C shows the price of electricity offered by the energy retailer.

The information above and below and in Tables A and B was prepared by the OEB. Table C and the “Description of Contract Price Offer” was prepared by the energy retailer.

Use the OEB’s Online Bill Calculator to Compare Prices.

Before you enter into an energy contract, get a current price comparison.
Use your own utility bill, the contract price offer and the OEB’s bill calculator.
Go to [OEB.ca/calculator](https://www.oeb.ca/calculator)

Before Comparing Prices

Here are key things you need to know:

1. Other Charges

Even if you switch to an energy retailer, you will still have to pay other charges each month to have your electricity delivered to your business by your utility. These charges include Delivery and Regulatory charges as well as taxes.

2. The Global Adjustment (GA)

All electricity customers pay a portion of the GA. The electricity prices offered by your utility include an estimate of the GA. If you switch to an energy retailer, you will still have to pay your share of the GA and it will appear as a separate line item on your electricity bill. The GA is calculated, and can change, each month. For more information about the GA, contact the OEB.

3. TOU Pricing

Under TOU pricing, **the amount your business pays for electricity depends on when you use it.** For example, a small business may use:

- during Off-Peak hours when prices are lowest
- during Mid-Peak hours when prices are higher
- during On-Peak hours when prices are highest

These patterns are reflected in Table A.

4. Tiered Pricing

Under Tiered pricing, a business can use up to 750 kWh each month at a lower price. Once that Tier 1 limit is exceeded, the higher price applies.

Tables A, B and C compare prices for three different levels of monthly electricity use. **Check your bill and select the kWh level that is closest to what your business uses each month.**

TABLE

Electricity Line Price From Your Utility (for TOU customers)

These prices are set by the OEB. The bill amounts are calculated using the TOU consumption pattern described on the left. Your usage pattern may be different.

Off-Peak			
cents/kWh			
Mid-Peak			
cents/kWh			
On-Peak			
cents/kWh			
GA: cents/kWh (This is a forecast cost, which is included in the above prices as described to the left.)			
*Estimated Electricity Line Monthly Total			

TABLE

Electricity Line Price From Your Utility (for Tiered customers)

These prices are set by the OEB.

Tier 1 (up to 750 kWh x cents)			
Tier 2 (over 750 kWh x cents)			
GA: cents/kWh (This is a forecast cost, which is included in the above prices as described to the left.)			
*Estimated Electricity Line Monthly Total			

TABLE

Electricity Line Contract Price Offered By:

These prices are not set by the OEB.

cents/kWh	cents/kWh	cents/kWh
GA: cents/kWh (This is a forecast cost that can vary monthly.)		
*Estimated Electricity Line Monthly Total		

Description of Contract Price Offer

The Contract Price Offer information below and in Table C above has been prepared by:

It has not been reviewed or approved by the OEB.

*You will also have to pay other charges to your utility including Delivery and Regulatory charges as well as taxes.
