Re: Consultation on Updates to Filing Requirements for Electricity Distribution Cost of
        Service Applications
        Ontario Energy Board File No.: EB-2022-0096

_____

On February 22, 2022, the Ontario Energy Board (OEB) announced that it would establish a working group to review the filing requirements for 2024 rates for large distributors (i.e., those with 30,000 or more customers), and asked for nominations for members to participate.

The OEB thanks everyone who expressed an interest in being a member of this working group. The challenge in selecting the working group was ensuring that distributors and intervenors were appropriately represented while keeping the size of the working group manageable so that project timelines are met. The members of the working group are:

Distributors:

1. ENWIN Utilities Ltd. – Josh Charles
2. Niagara Peninsula Energy Inc. – Paul Blythin
3. Toronto Hydro-Electric System Ltd. – Elissar El-hage

Intervenors: (eligible for cost awards)

1. Association of Major Power Consumers in Ontario – Shelley Grice
2. School Energy Coalition – Mark Rubinstein
3. Vulnerable Energy Consumers Coalition – Bill Harper

The working group's objective will be to cover the topics outlined in the February 22 letter and ultimately update Chapters 2 and 5 of the Filing Requirements for Electricity Distributors along with associated models and Appendices. The OEB did not receive
